Foreword

WAN-IFRA is very happy to present the new members of the twelfth International Newspaper Color Quality Club (INCQC) in this brochure. This year's edition of the competition was by far the toughest when compared with the last few editions and tremendous amount of efforts has been made by each and every newspaper title that participated in the competition. Our hearty congratulations to the club members of 2016–2018.

The competition is open for all newspapers irrespective of their production technology. To facilitate this, the competition has four technical categories – Category 1 for coldset printing, category 2 for heatset printing on newsprint, category 3 for heat-set printing on light-weight-coated or super-calendared paper and category 4 for special printing processes or conditions like digital printing or printing on tinted paper. Category 4 is also open to those newspapers that follow their own in-house standards due to extraordinary circumstances.

INCQC 2016–2018 received a total of 130 unique entries from 29 countries across the four technical categories. For the first time, the highest number of entries came from India with 31 entries followed by Germany with 25 entries. The high number of entries from India can be attributed to the growing newspaper market in the country and the fact that standardised high-quality newspaper printing is gaining importance in this competitive market.

Before drafting the instructions for INCQC 2016–2018, we discussed about the format of the competition with several industry experts to gain insights to make the competition more challenging and useful for the participants. The idea of asking the participants to print the WAN-IFRA "Cuboid" test target for one full week in every competition month originated in one such discussion. We also added more emphasis to the General Print Quality evaluation by inviting an international panel of expert judges. To print high quality in accordance with international standards throughout the competition period is not an easy task and is possible only by getting all the production staff to be involved in the project, creating quality awareness across all departments and working on finer aspects of quality and its control. We believed that when printers think and work towards achieving high quality throughout the four months competition period, then quality will become part of their day-to-day activity and that is exactly the objective of the competition.

To quote a participant, Mr. Patrick Zürcher, Managing Director, Freiburger Druck GmbH + Co. KG, Germany: "The whole team of Freiburger Druck worked closely together and gave their best to print the finest high-quality products during the competition. The whole staff was very curious and full of expectations about the monthly INCQC results, which built a close connection between the printers and the whole team of Freiburger Druck. For our customers the membership is a proof of our high standards". From such testimonials, we are happy to note that the International Newspaper Color Quality Club has achieved its objectives.

With great pleasure, we also announce the inclusion of four newspapers into the WAN-IFRA's Star Club. The new members are Freiburger Druck GmbH + Co. KG, Freiburg, Germany, Nordost-Druck GmbH & Co. KG, Neubrandenburg, Germany, Ungeheuer + Ulmer KG, Ludwigsburg, Germany and Verlag Nürnberger Presse, Nürnberg, Germany.

Star Club is an elite group of newspaper printers that have proved their consistency in quality over several years by winning in the colour quality club or achieving certifications. Star Club membership is presented to a company in recognition of outstanding printing quality if it achieves five or more stars by participating successfully in the International Newspaper Color Quality Club or by obtaining WAN-IFRA certification for standardised printing. One star is awarded for each successful INCQC participation in a competition year, independent of the number of successful entries. Two stars are awarded for the successful WAN-IFRA certification of a printing plant. Certification is valid for two years, after which it can be renewed.

Once again, we congratulate all the winners and we look forward to the next edition of the competition. Registration for INCQC 2018–2020 will open on 1st of June 2017. For regular updates, please follow www.colorqualityclub.org.

At ABP, we believe in informing, educating and entertaining using every possible means of communication. With eleven publications and three news channels, leaders all, we are the eyes of the people, showing them the world each day. From the oldest Bengali newspaper, Anandabazar Patrika, to the most innovative English newspaper, The Telegraph. From India's most culturally revered magazine, Desh, to the country's leading business magazine, Fortune. We have, today, evolved from our traditional area of expertise, the print medium, to leadership in the exciting new medium — television ABP News, ABP Ananda and ABP Majha are India's leading Hindi, Bengali and Marathi news channels.

Our reach extends to the internet as well. While both Anandabazar Patrika and The Telegraph have online editions, The Telegraph's is the first to be available on WAP-enabled phones worldwide. In addition, mobile and internet properties are also a part of our bouquet. We communicate news and information, ideas and values. All through the power of words.

THE BOOK BOND

If you thought Calcutta's love affair with books was over, you just had to be there at the East Gate of Victoria Memorial on Sunday. Hundreds were there in a long, jangling queue of autograph-seekers waited patiently for a moment with Ruskin Bond. The 81-year-old author charmed them all. Bond was in town for the Kolkata Boi Mela in partner with Hindi, who was delighted to get her Children's Omnibus signed. "I am so happy to meet Ruskin Bond. I have read many of his books. My favourite among them is Ghost Trouble," said the Class II student of Apeejay School.

Bond addressed a 10-strong crowd that filled up the grand chessiness of the Tata Steel Kolkata Literary Meet, being held in association with Victoria Memorial Hall and Telegraph. Picture by Aniruddha Chowdhury See Metro

Central rule push in Arunachal

GURUBIRSAL

Jan. 24: The Union cabinet is to meet in Delhi tomorrow to take up Congress-ruled Arunachal Pradesh while the Supreme Court is looking into the frontline state's political fortunes in the wake of a rebellion by "Assembly members" in a community hall and a hotel.

The cabinet, chaired by the Prime Minister, had an unscheduled meeting in Delhi this morning — a Sunday. The recommendation needs to be cleared by the President.

A five-judge constitution bench of the Supreme Court is scheduled to take up on Wednesday a case on the political crisis in Arunachal. There is an inquiry by the Centre recommending President's rule in the state, but the ruling has the moral overtones of the action was questioned by incumbent chief minister and Congress leader Nabam Tuki.

Tuki told The Telegraph this evening that he would approach the Supreme Court and the President. "I got the impression that the cabinet is. Don't know why the cabinet has recommended President's rule before the hearing in the Supreme Court's decision.

"The Centre can do what ever it wants but it cannot weaken the Congress in the state. We have a majority and we will throw a democratically elected popular government."

Tuki was referring to the revolt in a rebellion in the Congress following which the BJP elected monks with the breakaway group. As many as 21 of the 47 members in the Assembly in attendance had revolted against Tuki, who had backed the national treasurer and led the Congress to victory in 2014. Sarah Ajay Kumar, a Congress MLA, merged with the Congress.

In December, the 21 rebel MLAs and two other BJP members and two Independents, held "Assembly session" in a community hall and later in a hotel, "impeached" Speaker Nabam Rebia and filed it rebels, voted out Tuki and elected a dissident Congress leader, Kalikho Pul, as chief minister in his place.

'Advice' makes VC go on leave

BASANT KUMAR MAHARANA
G.S. RAMAKRISHNA

Jan. 24: University of Hyderabad vice-chancellor Appa Rao Podile today went on indefinite leave following "advice" from undisclosed quarters.

Rao had temporary replacement became another red rag for students who have been agitating through a week-long hunger strike over the suicide of research scholar Rohith Vemula a week ago.

The central university spokesperson said Rao had sought leave "for personal reasons" and that he would be out most professor Vipin Srivastava, would perform the duties of the vice-chancellor.

But a student associated with the Joint Action Committee (JAC) spearheading the agitation said Srivastava had been "advised" by the ministry to recommend Rohith's punishment, which is believed to have driven him to death.

While confirming his leave of absence, Rao's spokesperson has not been specified — Podile said he was "advised to go on leave by the ministry". Asked whether he would take charge once normalcy returns, he replied in the affirmative, according to PTI.

Srivastava, a political scientist who had advised him to take such a step but a family member later said "well-meaning friends from Delhi" had given the advice.

Although the government is not expected to meddle in administrative matters, a human resource development ministry is known to have earlier given similar "advice" to vice-chancellors of unwelcome.

But Ghanshyam Goel, the information officer at the HRD ministry denied tonight that any advice had been issued to Rao or Srivastava. Podile "It is not the ministry's decision," Goel said.

Rao's decision to leave university has not admitted to go on leave. The ministry has also not asked."

The issue is of significance since early last week had suggested that attempts were afoot to give a clean chit to the ministry and pin the blame on Rao and Srivastava. The HRD factfinding team has more or less done so although it has asked the university's reminders to be cursory on a complaint, filed by central minister Bangaru Dattatreya, against a students' group with ties to the ruling party.

The students have been demanding the resignation of Podile, Dattatreya and HRD minister Smriti Irani.

Rao, who is a history not and claims not that the Victor (the President) has the power to remove him. Besides, the planning board — made of persons of academic standing and headed by the vice-chancellor — can advise the executive council on academic matters.

The JAC's unnamed member told The Telegraph that the council held a meeting on Friday where it revoked the punishment imposed on the five students. The council has neither got any advice from the planning board nor did it ask Rao to go on leave, the member added.

The choice of Srivastava as Podile's stand-in has opened up another flank. "The JAC will not accept Vipin Srivastava as the vice-chancellor because associated with the action committee said.

The JAC and the SC-ST Faculty Forum alleged that a letter written by Rohith before his suicide in 2008 when Srivastava was dean. Srivastava had allegedly written that when the student had shown signs of depression, a JAC member alleged.

Srivastava said tonight "that the matter has been settled out" and expressed the hope that the university will resolve the current impasse.

The JAC has called for a "Dalit Central University of Hyderabad" tomorrow when students of 40 central universities are expected to reach the campus to join the protest.

Rohith's mother Radhika was admitted to the ICU in a hospital tonight after she complained of chest pain, her other son Raja said.

Made-in-India, ownership stand in way

Twin snags in French N-talks

G.S. MUKHARJI AND CHARU SUDAN KASTURI

New Delhi, Jan. 24: New Delhi's quest to put the Make in India tag on its plans to build six nuclear reactors and a change in ownership of France's reactor supplier were clouding last-minute negotiations as French President Francois Hollande arrived in India today.

Both these issues, which will determine the cost of the reactors and the electricity they will generate for Indian homes, have made it uncertain that any breakthrough will emerge from tomorrow's summit, the officials said.

"EDF will be in the lead now; that is creating a change in the way nuclear negotiations will be conducted," the French ambassador to India, Francois Richier, told reporters this week. Electricite de France, a French government-owned utility, had taken over Areva's nuclear business in 2015.

The six proposed reactors at Jaitapur will add 9,600MW to India's installed nuclear capacity. The government-owned Nuclear Power Corporation, the sole company that can operate nuclear power plants in the private sectors in India, has set a "target" of expanding the installed nuclear power capacity from the current 5,780MW to about 14,000MW by 2024.

IN BRIEF

PM tax promise

■ Prime Minister Narendra Modi has said the controversial retrospective tax law is a "matter of the past" and the government is taking steps to ensure that "this chapter will never be opened again". The assurance came while addressing the concerns of foreign investors over tax liability in the tax regime.

WHO alert for India

■ The World Health Organisation on Sunday issued an alert to India and other Southeast Asian countries to remain vigilant after a traveller from Kerala was found infected with a virus that had emerged in Saudi Arabia in 2012 and can cause severe respiratory illness.

The Grand Rapids Press traces its roots back to 1890 when William J. Sproat founded the Press Publishing Company in Grand Rapids, Michigan, and issued The Morning Press, the city's first penny newspaper. The first four page issue was published on Tuesday, September 9, 1890 and was non-partisan in its politics. It was a daily paper that published seven days a week. On August 13, 1892 a controlling interest was purchased by George G. Booth and E.B. Whitcomb. The Press Publishing Company purchased The Evening Leader (established in 1879) and merged it with the Morning Press, publishing its first issue under the banner of The Evening Press and Leader the day after Christmas 1892. In January 1893 the name was shortened to The Evening Press and the Sunday edition was dropped after March 5, 1983. The name of the paper changed to The Grand Rapids Press on October 8, 1913. In 1914 the Booth Publishing Company was formed with The Grand Rapids Press, its flagship paper, and seven other Michigan newspapers. On April 1, 1958 Booth Newspapers purchased The Grand Rapids Herald in 1959 and merged it with The Grand Rapids Press to become the sole daily newspaper in Grand Rapids. At the time the Press was still printed six days a week and didn't have a Sunday publication; the Sunday edition of the Herald continued as part of The Grand Rapids Press and became a seven day publication. S.I. Newhouse acquired Booth Newspapers Inc. on October 27, 1976.

The Grand Rapids Press retired its aging Goss Mark II letter press in 2004 and replaced it with ManRoland Geoman 75 offset press equipment. The press consists of two single-out 2-5-5 jaw folders centered between eight four-over-four printing towers capable of printing 64 pages in full color. The printing facility, located in Walker Michigan, now serves as a regional print facility and prints the daily newspapers The Grand Rapids Press, Muskegon Chronicle, Kalamazoo Gazette, Lansing State Journal, Battle Creek Enquirer, and nineteen weekly papers, as well as other commercial print jobs.

On February 2, 2012 the Grand Rapids Press and the seven other Booth Newspapers were reorganized into two companies: MLive Media Group, responsible for advertising sales, reporting, and online publishing; and Advance Central Services Michigan, responsible for printing, packaging, distribution, and support rolls for MLive Media Group. With the reorganization The Grand Rapids Press still prints seven days, but only delivers to homes on Tuesday, Thursday, and Sunday.

Advance Central Services is proud to continue its commitment to print excellence with membership of The Grand Rapids Press in the International Newspaper Color Quality Club which began with the 2008-2010 competition, continued with membership in the 2010-2012 and 2014-2016 competitions, and received its fourth quality star in 2016-2018.

CTP Systeme für die Zeitung

Für jede Anforderung die passende Lösung…

Zeitungen in der ganzen Welt versorgen ihre Leser täglich mit Informationen. Alle haben das Ziel, diese in höchster Qualität, Aktualität und Zuverlässigkeit zu ihren Kunden zu bringen. Computer to Plate Systeme sind dabei das Bindeglied zwischen den Daten und der gedruckten Zeitung, denn sie übertragen die digitalen Daten auf die Druckplatte und von dieser aufs Papier. Die Anforderungen an CTP in Bezug auf Geschwindigkeit, Automatisierungsgrad und die Komplexität sind dabei höchst unterschiedlich.

Hier bietet Krause als einziger Hersteller von CTP-Belichtern und Entwicklungsmaschinen für jede Zeitung die passende Lösung.

Qualität schafft Vertrauen.

Al Nisr Publishing

Gulf News

Gulf News was first launched in tabloid format in 1979 by prominent UAE businessman Abdul Wahab Galadari; its offices were located on the Airport Road, Dubai. In November 1984, three leading UAE businessmen, purchased the company and formed Al Nisr Publishing. The new owners of the paper were Obaid Humaid Al Tayer, Abdullah Al Rostamani and Juma Al Majid.

Under new ownership, Gulf News was relaunched on 10 December 1985 and was free to the public. From February 1986, the public was charged one Dirham (US 27 cents) a copy for the Gulf News package which comprised the broadsheet newspaper and a leisure supplement called Tabloid, which also contained classifieds.

After moving into new premises in 1986, Gulf News began to be distributed to other GCC countries: Bahrain from September 1987; Oman from April 1989; Saudi Arabia from March 1989; and Qatar from April 1989. It also became available in Pakistan from August 1988. Al Nisr Publishing became a Limited Liability Company (LLC) with a share capital of Dh15 million on 26 May 1997. The daily launched a website and video news in the second part of the 2000s. (Source: Wikipedia, 19.8.2014)

Alma Manu Oy

Kauppalehti

UUTISET: Mykkänen odottaa vaikeaa brexit-vääntöä »8

Kauppalehti

MAANANTAINA 27. KESÄKUUTA 2016

Euro Stoxx 600 -indeksi 22.–24.6.2016

Rytinä ei jää tähän

Helsingin pörssiin on luvassa rytinää tänään - maailmalla brexitin säikäyttämät osakekurssit syöksyivät jo perjantaina. Hermoilu osakemarkkinoilla voi jatkua vielä viikkoja. Brexitin tuoma epävarmuus hyydyttää myös talouskasvua.

BREXIT-PAKETTI » 4-10

OMXH +0,65%

Kauppalehti is Finland's leading business media reaching over 800 000 readers every week. It is part of Alma Media, Finnish media company focusing on digital services and publishing.

Kauppalehti newspaper is published five days a week, from Monday till Friday. The newspaper was founded in 1898 and nowadays it has 154 000 readers every week. Kauppalehti Optio lifestyle magazine is published every second week. Kauppalehti.fi reports on business and financial news 24/7.

Kauppalehti has been printed in the Alma Manu printing house since the over 20 years. During this time, newspaper and printing press have been in close co-operation assessing the print quality issue by issue and discussing results and deviations in regular meetings.

Alma Manu Ltd

Alma Manu Ltd is the forerunner in both printing and distribution in Finland. Our environment-friendly printing plant in Tampere is the most modern in the Nordic countries, and it provides a significantly wider scope than newspaper printing plants generally. We print weekly about 6 million copies of newspapers and about 60 different newspapers with inserts, circulations varying from a few thousand to millions.

Alma Manu's printing quality has repeatedly won international recognition in recent years. This is now the fourth consecutive time when Alma Manu's Tampere plant applied for and was granted the highly appreciated membership of the quality club. WAN-IFRA club membership is a quality guarantee and it indicates the high standard of every day performance.

We are committed to further develop new solutions and to diversify our product portfolio in order to be able to offer our customers even more innovative, high-quality printing services.

Alma Manu Ltd is the printing and delivery unit of the Finnish media corporation Alma Media.

日蘋報果

2016.6.26

First published on 20 June 1995, Apple Daily is a Chinese-language newspaper and the second most popular newspaper in Hong Kong. Since its launch in 1995, Apple Daily has transformed Hong Kong's Chinese print media market with its signature features of openness, liberalism, vibrancy and the quest for truth.

Apple Daily Printing Limited provides printing services to complement Apple Daily's business in Hong Kong. It also provides printing service to external customers.

On May 2, 2003, Next Media Limited launched Apple Daily in Taiwan. The newspaper have quickly seized to the top position in the island's daily newspaper market. Until now, it continues to have one of the largest readership in Taiwan.

On October 20, 2015, the company changed its English name from "Next Media Limited" to "Next Digital Limited" whilst its Chinese name remained unchanged in order to reflect the strategic move of the Group's business focus towards digital business and align with its business nature and growth objectives.

Apple Daily is printed in-house at our two printing sites situated in Taoyuan and Kaohsiung. Such coverage enables distribution of the newspaper to all major cities in Taiwan within three hours.

Münster | MCC Halle Münsterland

With its newspapers Westfälische Nachrichten and Münstersche Zeitung, the Münster Newspaper Group has two of the leading regional brands under its roof. Their editorial stuff and content from advertising customers is distributed through a range of channels including print, online, and mobile.

The printed newspaper continues to be the core of its business with a sold circulation of more than 230,000 copies a day across the Münsterland Newspaper Group (ZGM). This is complemented by a range of digital offerings including the recently started news apps for smartphones and tablets, the news portals www.wn.de and www.muensterschezeitung.de as well as the digital e-papers of the two titles. The company's portfolio is rounded off by mobile services and target group-specific online offerings under the Aschendorff Digital brand.

The newspaper Westfälische Nachrichten is published by the Münster-based Aschendorff Group (www.aschendorff.de), a family-managed and family-owned business with a history of close to 300 years. Currently, Aschendorff employs approximately 700 people at various locations in the region. Its corporate headquarters is situated in the industrial complex "An der Hansalinie" in Münster, Germany.

While the history of Aschendorff's book publishing business can be traced back to the time before 1720, Aschendorff's newspaper tradition began in 1763 with the first issue of the Münsterisches Intelligenzblatt and was continued in 1852 with the establishment of the Münsterischer Anzeiger. This title ultimately morphed into the newspaper now known as Westfälische Nachrichten. The publisher's regional focus is evident in its 26 different local editions. Today, a large number of regional and national titles trust in the competency of the Aschendorff Printing Centre.

Apart from producing the newspapers Westfälische Nachrichten and Münstersche Zeitung this printing powerhouse which celebrated its 250th anniversary in 2012 prints a number of different titles for seven publishing partners affiliated with the Münsterland Newspaper Group (ZGM) as well as numerous print jobs for third-party customers.

In all its operations, quality is paramount: For the seventh time in a row, Aschendorff has qualified for the International Newspaper Color Quality Club which also makes it a member of the WAN-IFRA Star Club. The QUIZ and ISO certifications achieved by Aschendorff are further evidence of the company's superb print quality.

Keskipohjanmaa

KESKIPOHJANMAA

Kansalliset pykälät poistumassa kabotaasilaista

Rekat tänään protestiajossa

Tiistai 21. KESÄKUUTA 2016

MATKALLA POHJOISEEN

Kaksoisraiteen rakentaminen etenee nyt vauhdilla kohti Ylivieskaa, jonne sen on määrä valmistua ensi vuoden syksyllä. Eskolan ratapihan kohdalla valmista pitäisi olla heinäkuun lopussa. Kokkola–Ylivieska välin kaksoisraideurakasta vastaava projektipäällikkö Simo Sariola vot tällä hetkellä todeta, että aikataulussa ollaan - ja jopa siitä edellä.

Vihdin ampujalla rynnäkkökivääri

Juhannustyöt täydessä vauhdissa

Autoteknikot koolla Kokkolassa

Kaksi lohkoa tänään päätökseen

Uudenlainen ravintolakonsepti Hiekkasärkille

Vaikka talouskasvu on ainakin myönteinen asia, huolestuttavaksi asian tekee kasvun nojautuminen kotimaiseen, velkaantuvaan kysyntään.

KOLUMNI

Poliisin ammatti ei ole ainoa, jossa voi kuolla työn puolesta. Ammutuksi voi tulla baarimikko, kaupan kassa tai poliittikko. Jokainen kuolintapaus on yhtä vakava, mutta poliisisurma horjuttaa kansalaisten turvallisuuden tunnetta.

www.kp24.fi/juttuvinkki

Established in the spring of 2009, and production began in May 2010
Ownership Keski-Pohjanmaan Kirjapaino Oyj (65%) and HSS Media (35%).
Waterless printing technology with KBA Cortina 4/1 Press.
About 300 000 daily newspapers.
Keskipohjanmaa, Vasabladet, OT, Kalajokilaakso ...
32 employees.
Turnover of 10 million €.
Paper consumption at 6000 t / year.

El Tiempo Casa Editorial comprises a wide portfolio of companies, of which El Tiempo is one. El Tiempo is the daily newspaper with the largest circulation and coverage in the country, with an average of 250000 copies daily; three regional journals with a six-day-per-week circulation; Portafolio, the leading business daily paper in the country; City TV, a local TV channel in Bogogá; Canal ET, a full day news channel; Multirevistas, a publishing company for niche-oriented magazines; Eltiempo.com, the most visited media website in Colombia, as well as other activities related to commercial printing, private TV and databases.

El Tiempo has national coverage and is the journal with the largest circulation with six regional editions: Nacional, Medellín, Cali, Café, Caribe and Bogotá, which are printed at three different plants.

The main plant is in Bogotá where three Goss Metro and MetroLiner presses and one 4-tower NewsLiner press with a digital page pack inking system are installed. The second printing plant is in Cali, in the province of Valle del Cauca, where there is a 4-tower Goss Universal 70 rotary press specialized in the printing of the highest quality coldset printing jobs. The third plant is in the city of Barranquilla, and has a 16-unit Goss Urbanite rotary press and the 4th press is located in Medellín and has a 16-unit Goss Urbanite rotary press.

For printing from Monday through Saturday, the newspaper publishes an average of 54 pages and the circulation is 235000 copies. The Sunday edition, on the other hand, has 94 pages and circulation of 400000 copies. Weekday colour content is an average of 24 pages for weekends.

Why INCQC

The production area's main purpose is to carry out the work initiated along with Asociación de Diarios Latinoamericanos ATDL, under WAN-IFRA's supervision, and ACER group (Alta Calidad En Reproducción, wich translates High Quality Production), wich consists of establishing and maintaining a common printing standard by applying parameters based on the ISO12647-3 norm. This offers a similar result in the printing of ads to facilitate colour work for customers who do not require a high degree of quality but, rather, consistency between different editions, whatever type of machine is used.

Le Matin

Published by Tamedia Pubications Romande, "Le Matin" offers a paying newspaper from Monday to Saturday, public holiday included. With his convenient tabloid size, it pays attention as well in major themes in the news as daily small stories of everyone. It relates news items, is interested in famous and non-famous people and spare-time activities also. It is the appointment and the inescapable expert for sports.

Each days "Le Matin" prints more than 50'000 copies for French-speaking Switzerland readers.

Free on computers, smartphones and digital tablets, "lematin.ch" deals with breaking news and covers live events, mainly sporting events.

Also present on social networks (Facebook, Twitter, Instagram, You Tube), "Le Matin" looks for everything that vibrates the web planet.

Delo d.d.

DELO

DELO

Pri Šorliju bolj napeto kot pri Mežnarjevi

Nagrajeni film, ki ga je navdihnila afera Baričević

Kljub in navkljub

Nameščena druga od treh turbin

Delo, d. d. is the largest newspaper print publishing house in Slovenia (d.d. stands for the shareholder company). Delo, d. d. covers more than 55 percent of the Slovenian newspaper market. Some 180 journalists with support from 220 technical staff publish the dominant national daily newspaper Delo (circulation 50,000–70,000 copies), the tabloid newspaper Slovenske Novice (average circulation 70,000–90,000 copies) and others (Sobotna Priloga, NeDelo, Delo & Dom, Ona, …).

Why INCQC?

Delo began printing colour in 1994 and became a member of the International Newspaper Colour Quality Club for the first time in 1998. This happened after ISO 12647-1,2 and 3 standards had been applied. To date, Delo has become member of the Club eight times.

Our production configuration is based on standardised ISO parameters using standard profiles ECI/ISO.

Both, Mueller Martini and Ferag equipment is used for the daily delivery and mailroom tasks.

Wie herrlich blüht jetzt der Raps
Was man alles über die beliebte Pflanze wissen sollte

Verlässt Broistedt Hameln?

Haltestelle in der Nordstadt dauert noch

Niedersachsen schließt Notunterkünfte
Nur noch 4500 Plätze belegt: Mitarbeiter bangen um Jobs

Wer kennt die Lösung? Das Netz rätselt
Im Internet verzweifeln die Menschen an einer Matheaufgabe, die zum Lehrplan der 5. und 6. Klasse gehört

The Deister- und Weserzeitung (DEWEZET) has been published in Hamelin since 1848. The publishing house is owned and run in the seventh generation by the Niemeyer family, today, as a regional publishing house with a printing plant. DEWEZET has some 190 employees. Besides DEWEZET, the company also publishes Pyrmonter Nachrichten in a daily combined print run of 30,000 copies. In addition, the company supplies the editorial jacket for four other titles of partner publishing houses in the region of Schaumburg and Deister, printed in the printing center in a print run of about 32,000 copies daily. The weekly production schedule, on top of the newspaper titles, includes more than 250,000 copies of advertising freesheets, tow weekly newspapers as well as several high-quality commercial jobs.

Ad management is done by Vi@Va system from Lufthansa Systems. Layout, jacket production and page finishing are carried out in the Funkinform Dialog 4.8 editorial system. This work is done in the publishing building in the historical city center of Hamelin.

The print data transmitted via dedicated line to the printing center outside of Hamelin, built in 2004. Every night, approximately 600 plates are imaged there, printing is done on a Man Roland Geoman equipped with two, four-high towers built in the blanket-to-blanket configuration. Up to 12 inserts can be processed by the inline Ferag mailroom system. In this way, every night between 23.00 h and 2.50 h about 64,500 newspapers copies are printed, wrapped and delivered to the customers.

Besides printing, the publishing house has shares also in several logistics companies and its own mail delivery service, Citipost Weserbergland. In the online issue, the Medien31 subsidiary offers online presentations and app solutions for local customers as well as Europe-wide prize games for nearly 80 newspaper publishing companies.

La voz del Interior (founded 03/15/1904 at Cordoba/Argentina) belongs to Grupo Clarin, the main communication media group in the country.

Has the fifth position in circulation in Argentina, averaging 90,000 copies on Sundays with a readership ratio of 2.9.

La Voz del Interior is a multi-target newspaper with a general content section, classifieds, MundoD (sports) and VOS (entertainment, culture and leisure).

Additional supplements are Trends, Tourism, Agricultural, Business, Games, Health, Humor and Reports, plus the "Rumbos" magazine on Sundays.

It is printed on a Goss Headliner Press, with automatic ink adjustments; later, three co Metrocolor towers were added together with a second folder unit.

La Voz del Interior is a fully integrated multimedia company focused on the digital and print concept, delivering contents on multiple platforms.

The company runs several websites, lavoz.com.ar, mundod.com.ar, vos.com.ar, diaadia.com.ar, among others.

Our main site www.lavoz.com.ar ranks 3 among the most popular news sites in Argentina.

Why INCQC?

The participation in INCQC gave us a good experience allowing us to benchmark our processes against the global leaders. Also to update our knowledge, correct our errors and maintain high standards. It is a way to challenges our personnel to learn new concepts and develop new processes.

Styria Media Group AG is the leading media company in the southern region of Austria. Its traditional daily newspaper "Kleine Zeitung" is brought to readers in the Austrian federal states of Styria and Carinthia. "Kleine Zeitung" has a long lasting success story to tell and issues up to 370.000 copies in the Styria/Carinthia region daily.

In addition to that Styria Media Group AG publishes newspapers and magazines for any other region of the Austrian market and is a major player in Slovenia and Croatia, its main foreign markets.

Druck Styria GmbH & Co KG is one of two Austrian newspaper printing sites within Styria Print Group. The group consists of two plants in Austria and one in Croatia. Druck Styria`s main daily product is "Kleine Zeitung", but they also produce another daily newspaper as well as a lot of weeklies, monthlies and a high number of advertising material.

The company's technical equipment includes 2 MAN Roland Colorman printing machines delivering 48 pages in broadsheet format each, as well as two FERAG mailroom lines. Various additional machines are available within the group in order to meet the advertising expectations of their publishers.

Thanks to great effort the team of Druck Styria GmbH & Co KG is always contributing to the good market position of the printing group. They are convinced that coldset products will be an even more successful and attractive part of the media landscape. To be repeatedly member in the INCQC hallmarks their work.

UNABHÄNGIGE TAGESZEITUNG IN BADEN-WÜRTTEMBERG

Marseille, 21 Uhr: Auf geht's Richtung Finale

Meuthen gründet eine neue Fraktion

With 120 employees, Druckerei Konstanz produces around 125 million printed copies annually. We cover a wide range of products (newspapers, freesheets, advertising inserts, high-quality magazines and brochures) for our own publishing house and numerous customers.

The heart of our printing plant is the rotary printing press KBA Cortina, which uses the highly innovative waterless offset process. This creates very attractive opportunities for our customers in terms of print quality, economy and ecology.

With awards at major industry competitions Druckerei Konstanz demonstrated her performance several times impressively.

Why INCQC?

Although the INCQC test procedure is very demanding, it gives us a good overview of how well we master our processes and where we stand compared to our colleagues. Moreover, membership in INCQC is a valuable seal of approval, showing our advertisers and print customers that our printing quality is reliable and at a high level.

Medienhaus Südhessen

Since our beginnings in 1945 we have been the leading regional daily newspaper in South Hesse. A family-owned company, we have 420 employees and are firmly rooted in the region. Politically independent, we publish topics related to the region in a well-researched and objective way. Today, our six Echo editions, i.e. Darmstädter Echo, Odenwälder Echo, Starkenburger Echo, Rüsselsheimer Echo, Gross-Gerauer Echo and Ried Echo, reach some 330,000 satisfied readers daily with our total circulation of 110,000 copies. Our readers trust our independent reporting to stay informed about local and international events. This makes us the leading news provider for the population in the region of South Hesse – extending from Darmstadt to Rüsselsheim, Bergstraße and Odenwald. We satisfy the wishes of our readers and advertising partners for information with our freesheets and publisher's supplements that are distributed throughout the region as well as with our cross-media offerings (E-paper, apps).

Verhaftungswelle in der Türkei

PUTSCHVERSUCH Staat geht rigide gegen Soldaten und Richter vor / Erdogan spricht auch von Todesstrafe

ISTANBUL/BERLIN (dpa). Das harte Vorgehen der türkischen Staatsführung gegen tatsächliche und vermeintliche Putschisten weckt im Ausland große Sorgen um die Rechtsstaatlichkeit und Stabilität des Nato-Landes. Ministerpräsident Binali Yildirim, alle Parteien in der Türkei zu „gesetzmäßigem Handeln“ auf. Kanzlerin Angela Merkel verurteilte den Umsturzversuch mit etwa 300 Toten „aufs Schärfste“, mahnte aber zugleich die Einhaltung demokratischer Werte bei der Verfolgung der Urheber an. US-Präsident Barack Obama äußerte sich für Geschehnisse, welche die Nachrichtenagentur DHA am Sonntag. Der türkischen Nachrichtensender NTV berichtete, auch ein Berater des ehemaligen Staatspräsidenten Abdullah Gül sei festgenommen worden.

Große Unterstützung in der Bevölkerung

Erdogan hatte sich für seinen harten Kurs auf eine große Unterstützung in der Bevölkerung. Nach dem Umsturzversuch gingen am Samstag und Sonntag nach Schätzung aus Regierungskreisen insgesamt rund vier Millionen Menschen in der Türkei aus Protest gegen die Putschisten auf die Straße. Erdogan bezeichnete sie als „Helden der Demokratie“. Abdullah Gül hatte sich zu Beginn der Proteste für den Präsidenten eingesetzt. Dem dieser Kürzer, meiner Brüder, hat Menschen produziert. Leider haben sie wie ein Krebsvirus den ganzen Staat befallen.“ Erdogan machte Anhänger des im US-Exil lebenden Predigers Gülen für den Putschversuch verantwortlich.

Dieser streitet das ab. „Meine Botschaft an das türkische Volk ist, eine militärische Intervention niemals positiv zu sehen“, sagte der 75-Jährige unter anderem. Erdogan hatte bereits nach diesen Worte können Demokratie nicht erreicht werden. Gülen lebt seit Ende der 1990er Jahre in den USA. Nach dem mißglückten Umsturzversuch forderten Erdogan von den USA die Auslieferung seines einstigen Verbündeten.

Unklar blieb am Sonntag, wie viele Festgenommene in der Türkei aus dem Militär stammen und bei wie vielen es sich um Zivilisten handelte. Bei dem Umsturzversuch wurden nach offiziellen Angaben 265 Menschen getötet – mehr als 150 regierungstreue Sicherheitskräfte oder Zivilisten und 100 Putschisten – getötet, mehr als 1400 wurden verletzt. Die Putschisten wollen nach eigenen Angaben Demokratie und Menschenrechte so wie die vertrauensgemäßige Ordnung wieder herstellen und damit regierten Türkei wiederherstellen. Erdogan sagte mit Blick auf die Putschisten und Gülens Anhänger: „Sie werden einen sehr hohen Preis für diesen Verrat zahlen.“ Über die Einführung der Todesstrafe könne im Parlament gesprochen werden.

RICHTER

▶ insgesamt **2700 Richter** wurden bisher abgesetzt – fast ein Fünftel der rund **15000 Richter** in der Türkei. Der Chef der Richtervereinigung Yargıçlar, Mustafa Karadag, sagte, nicht nur mutmaßliche Unterstützer des Putsches, sondern auch unbeteiligte Kritiker Erdogans würden festgenommen.

Polizisten patrouillieren vor der Blauen Moschee in Istanbul. Foto: dpa

Polizisten in Baton Rouge erschossen

USA Drei Tote und mindestens drei Verletzte / Beamte vermutlich in Hinterhalt gelockt / Täter mit Gewehr bewaffnet

BATON ROUGE (dpa). Zehn Tage nach der Erinnerung von fünf Polizisten in Dallas sind in der US-Stadt Baton Rouge (Bundesstaat Louisiana) drei Polizeibeamte erschossen und mindestens drei weitere verletzt worden. Ein Täter wurde getötet, Lebensgefahr. Ein direkter Zusammenhang mit andauernden Protesten gegen Polizeigewalt in den USA wurde zwar zunächst nicht offiziell bestätigt. Es gab jedoch mehrere Hinweise darauf, dass es sich wahrscheinlich um eine geplante Attacke gegen Polizisten gehandelt hat. Demnach wurden die Polizisten vermutlich in einen Hinterhalt gelockt.

Parteitag der Republikaner

Nach Angaben des Weißen Hauses hielt sich US-Präsident Barack Obama über die Ereignisse auf dem Laufenden. Erst in der vergangenen Woche hatte er in Dallas eine Trauerrede für die dort getöteten Polizisten gehalten. Der Vorfall löste auch deshalb besondere Besorgnis aus, weil am Montag in Cleveland (Bundesstaat Ohio) der Parteitag der Republikaner beginnt. Dazu werden über 50000 Menschen erwartet.

Am Ende des Parteitages wird es zahlreiche Demonstrationen geben, das hat bereits Befürchtungen ausgelöst, dass es zu Ausschreitungen kommen könnte. Dabei finde die „Convention“ bereits unter schärfsten Sicherheitsvorkehrungen statt.

Erstere Angaben der Polizei in Baton Rouge zufolge waren verdächtig mehrere Schützen beteiligt, einer sei erschossen worden. Der Spitzer hielt es, nur ein Täter habe die tödlichen Schüsse auf die Polizisten abgegeben. Der Mann habe „aus dem Hinterhalt auf die Polizisten geschossen und sie getötet hat, tot ist“, sagte der Chef der Staatspolizei, Mike Edmonson, auf einer Pressekonferenz. Die Bevölkerung müsse nicht fürchten, dass es derzeit noch „aktive Schützen“ gebe.

Der noch nicht identifizierte Täter hatte am Sonntagmorgen (Ortszeit) drei Polizisten getötet und drei weitere verletzt. Die getöteten Polizisten waren laut Polizei 32, 41 und 45 Jahre alt.

Nach Medienberichten war bei dem Täter ein Sturmgewehr (5.56 Mm M4A2) ein Ausrüstungsgegenstand, dem zufolge ein mit einem Gewehr bewaffneter Mann eine Straße entlanggehe als Streifenbeamte einträfen, seien sie unter Feuer genommen worden. ▶ POLITIK

Türken fürchten Repressalien

DARMSTADT (ma). Mit Besorgnung haben in Darmstadt lebende Türken auf den Putschversuch in ihrer Heimat reagiert. Aus Furcht vor Repressalien der Regierung von Staatspräsident Recep Tayyip Erdogan wollten sie sich am Sonntag nicht zu dem Thema äußern. Ergänzen nur unserem Autoren.

Eine Vertreterin politisch konservativer Türken in Darmstadt zeigte sich überzeugt, dass der Umsturzversuch von Erdogan inszeniert war, um noch härter gegen politische Gegner unter anderem im Justizapparat vorgehen zu können. Eine Sicht, die auch andere türkisch-stämmige Menschen in Darmstadt teilen. ▶ SEITE 9

Tausende Fans beim Traffic Jam

RIEDERG (wog). Rund 4000 Musik-Fans haben am Wochenende beim Traffic-Jam-Festival auf dem Verkehrsübungsplatz in Dieburg gefeiert. Auf der Bühne standen 27 Bands. Vierzigjährige Hardcore-Musik war dort am Freitag und Samstag zu hören. Es war bereits die 17. Auflage der Open-Air-Veranstaltung. Was 1999 als Geburtstagsparty begann, hat sich im Laufe der Jahre zu einem der größten Musikfestivals in Südhessen entwickelt. Wer bei den 14 Vorgängerfesten verfolgt auch dieses Wochenende wieder dabei sein wird, das ab Mittwoch vorigen Woche Schlafsäcke.

▶ SEITEN 17 UND 23

Nizza-Attentäter doch IS-Terrorist?

PARISNIZA (dpa). Mesrop Tebrikow auch dem Lkw-Attentäter in Nizza wird das Profil der Attentäters immer klarer. Ermittlern war der 31-jährige Mohamed Lahouaiej-Bouhlel doch ein Islamist. Laut Ermittlerkreisen soll der Tunesier seinen tödlichen Einsatz unter Radikalisierung gestanden haben. Er soll sich bereits vor Jahr der Terrormiliz Islamischer Staat (IS) handelte, bleibt jedoch unklar. Er hatte die Tat wesentlich länger geplant. Den Mini-Truck, den er als Mordinstrument verwendete, habe er am 6. Juli reserviert und am 11. Juli abgeholt, meldete die Nachrichtenagentur AFP. ▶ POLITIK

Brexit: Keine Bleibegarantie

LONDON (dpa). Ein dauerhaften Aufenthaltsrecht in Großbritannien für Bürger, die bereits vor dem Brexit ins Land einwanderten EU-Bürgern verwehrt werden. Das kündigte Brexit-Minister David Davis an. Zur Umsetzung sagte der Konservative vage: „Es gibt verschiedene Möglichkeiten.“ Deshalb sei ein bestimmter Datum als Grenze. Premierministerin Theresa May hatte bereits eine Einwanderungsgebühr bis zum Auszug ihres Landes aus der EU. Mit Blick auf EU-Bürger aus dem Ausland, die bereits in Großbritannien leben, sagte Davis: „Wir werden eine großzügige Lösung finden.“

Tages-Anzeiger is the leading quality title in the region of Zurich and one of the leading newspapers in German-speaking Switzerland. The first edition was published on 2nd March 1893. Since then, it has developed progressively to become the market leader, with a well educated and professionally very successful readership. The importance of Zurich as a business and cultural centre for Switzerland gives the Tages-Anzeiger a national character.

Launched already with a long print run, the Swiss media research organisation (WEMF) statistics for 2015 list exactly 162'894 copies, whereas the MACH Basic study for 2016-1 shows 474'000 readers.

En crisis energética, pedir renuncias no es suficiente

Así lo señaló ayer *Antonio Celia Aparicio*, presidente de la Junta Directiva de Naturgás, gremio que comenzó su congreso anual en Cartagena. El empresario cuestionó a la Comisión de Regulación de Energía y Gas (Creg), cuya demoras en disposiciones han generado precios altos en ese combustible y contribuido a un escenario de incertidumbre energética en pleno fenómeno de El Niño. Paro tendrá marchas y protestas en Antioquia

Los promotores del paro nacional de 24 horas tienen previstas dos marchas y un desfile de camiones en Medellín. Apartadó, Caucasia, Amagá y Buriticá tendrán concentraciones. Las autoridades implementaron planes especiales para garantizar y mantener el orden. Además de las organizaciones sindicales, a la jornada se sumarán educadores, empleados de la salud y la justicia, mineros, organizaciones de usuarios de servicios públicos y de campesinos. PÁG. 18

Suspenden licencias de construcción en Sabaneta

Por incumplimiento en normas del POT, como una celda de parqueo por unidad de vivienda, e índice de densidad, la Administración de Sabaneta confirmó la suspensión de 15 licencias, de 101 autorizadas, para la construcción de 4.946 viviendas, entre noviembre y diciembre pasados. El freno a esas autorizaciones hace parte de la revisión que las autoridades de ese municipio hacen. Los procesos que quedarían sin piso son los que no tienen firma que los avale. PÁG. 11

"Putin se beneficia de crisis migratoria"

En diálogo con EL COLOMBIANO, *Alain Deneef*, observador de geopolíticas europeas, señaló que el mandatario ruso ve en la crisis de refugiados un elemento que puede amenazar la unidad del bloque europeo y restarle poder a personajes cruciales, como *Angela Merkel* en Alemania. Deneef defendió la propuesta de reubicación de refugiados hacia Turquía, que sería aprobada entre hoy y mañana. PÁG. 8

FIN HOY

El Colombiano is a platform publishing group with over 100 years of existence. It´s born in the city of Medellin in Antioquia. Founded on February 6, 1912 by Francisco de Paula Pérez, it has specialized in research and generation of journalistic content for different platforms that provides audiences informative, multimedia, trends and other resources to improve the quality life of the individual. Although its flagship product is the printed newspaper, circulating at the national level, El Colombiano also present in internet, mobile and tablet applications.

Why INCQC?

Color quality club is important for El Colombiano, allowing audiences and retain customers through standardization of our processes and delivering a high quality product to our customers and high Knowhow on your people.

El Telégrafo

Diario el Telégrafo

UN DOCUMENTO SECRETO DE LA CIA REVELA SU ESTRATEGIA EN ECUADOR

EL TELÉGRAFO accedió a un informe que evidencia cómo la agente 'Swat' se coló en instituciones ecuatorianas e influyó en las decisiones policiales y militares. (1)

EL TELÉGRAFO

DECANO DE LA PRENSA NACIONAL, FUNDADO EN 1884, PRIMER DIARIO PÚBLICO DEL ECUADOR

LUNES 13 DE JUNIO DE 2016 | HORA DE CIERRE: 19:40 | 40 PÁGINAS | ECUADOR | PRIMERA EDICIÓN

ENNER VALENCIA, JAIME AYOVÍ, CHRISTIAN NOBOA Y ANTONIO VALENCIA FUERON LOS AUTORES DE LOS TANTOS

La 'Tri' pasa a cuartos

La Selección Ecuatoriana de Fútbol se clasificó ayer a la siguiente ronda en la Copa América, tras vencer a su similar de Haití por 4 goles a 0. Desde 1997 no había llegado a esta etapa. (1)

"El Telégrafo", was founded in Guayaquil on February 16, 1884, by Juan Murillo Miró. The rising Journal adopted that name in honor of the telegraph service that was installed in Ecuador, in 1884. During the great banking crisis (1999-2000), it was owned by Fernando Aspiazu Seminario, who used it to fend off charges of embezzlement and fraud for which he would eventually convicted. In 2007 it was absorbed by the Ecuadorian State and March 17, 2008, it was refounded as the first public gazette. Today, the newspaper has won for the third time in a row the WAN IFRA and being recognized as one of the ten best printed newspapers in Latin America. It has also won an important number of international awards for its computer graphics and interviews in the recent years. It is now a national newspaper and on Sundays circulates under a special edition called "Seventh Day". Finally, since January 15, 2015 by executive decree is constituted as a public company "El Telégrafo EP".

Why INCQC?

Participation in the INQC has professionally helped us to improve and perfect every day in our quality processes, providing better product to our readers every day. This has forced us to keep working on making "El Telégrafo" the main newspaper in Ecuador.

El mercado de farmacias se consolida tras compra de Arcángel por Mifarma

Grupo El Comercio is a group of business units, one of which is El Comercio. El Comercio is the country's oldest and highest-profi le newspaper, with an average circulation of 70,000 copies from Monday to Friday, 160,000 copies on Saturday and 180,000 copies on Sunday. The newspaper has a different structure according to the day of publication, e.g. News, Economy, Sports, My Home, Travel, My Business, The Sunday, Portfolio, Day-1, International, Jobs, etc. Besides El Comercio, the El Comercio group also publishes the following national titles: Trome, Perú.21, Depor, Gestión y Publimetro, produced at four printing plants in Lima, Chiclayo, Huancayo and Arequipa. Two plants are located in Lima, one for commercial printing and the other for newspaper printing, which is done on four presses, two Goss NewsLiner presses with a capacity of 64 and 32 pages respectively, one Uniset 75 press equipped with 12 printing towers offering a capacity of 32 tabloid pages for line

There are two presses installed at the Chiclayo plant, one Goss Community with a capacity of 32 tabloid pages and one Goss Mercury with a capacity of 16 tabloid pages for printing the regional edition of El Comercio for the northern part of the country as well as the tabloid products distributed there.

In Huancayo is a Goss Community press another Manugraph with capacity of 32 and 24 respectively tabloid pages to print the regional edition of Comercio for the Central part of the country and other tabloids products distributed there.

In Arequipa is a Goss Community press another Tensor T400 with a capacity of 32 tabloid pages each to print the regional edition of Comercio in the southern part of the country and other tabloids products distributed there.

The F.A.Z. stands for intelligent, in-depth analysis and stimulating articles. Brands not only benefit from the excellent reach among decision makers and influential high-income target groups - they also benefit from a high intensity of reading and a large proportion of subscribers. The F.A.Z. is one of the most renowned brands in the world.

Top brands appreciate the excellent reputation of the newspaper and benefit from being close to the F.A.Z. brand.

Result: 71% of the Germans place their trust in the F.A.Z. - more than in any other national media brand.

The F.A.Z. is one of the most renowned brands in the world. With good reason: Since its foundation, the newspaper, its journalists and the publishing house have won more than 900 awards and prizes.

The F.A.Z. reaches 1 Million users every day.

Freiburg im Breisgau

Badische Zeitung is a daily newspaper founded in 1946 and published in Freiburg im Breisgau. The area of distribution of the Badische Zeitung covers the city of Freiburg, the districts of Breisgau-Hochschwarzwald, Emmendingen, Lörrach and Waldshut, South Ortenaukreis as well as a part of Schwarzwald-Baar. The Badische Zeitung reaches some 483000 persons living in the region. It is produced daily with 21 different local editions. It has a total of 16 distribution offices throughout the area to cater the needs of its readers.

Badische Zeitung is printed at Freiburger Druck GmbH & Co. KG using the waterless offset process on a KBA Cortina press as one of the first newspaper printing plants worldwide in 2006. The daily newspaper is also finished on a highly-modern Ferag mailroom system at Freiburger Druck. In addition to various prizes for outstanding quality, the printing plant was awarded an environmental prize for its exemplary ecological performance.

Why INCQC?

Every time during the INCQC participation the whole team of Freiburger Druck works closely together and gives it's best to print the finest high-quality products, as always since 2008.

During the competition the whole staff is very curious and full of expectations about the monthly results which encourage the close connection between the printers and the whole team of Freiburger Druck.

To be a member of the Color Quality Club for the fifth time is an honor for the whole company and strengthens the team for all the efforts fulfilling the high demands on printing products such as the Badische Zeitung. For our customers the membership proofs our standards right and ensures the outstanding quality of our products.

Now we are waiting for the next INCQC in 2018.

Brand in Feuerwache

"Regionally connected – globally informed!" That is the motto of the Heilbronner Stimme, the leading media company and regional newspaper publisher in North Wuerttemberg, Germany.

The Heilbronner Stimme is a family-owned business founded in 1946 by Paul H Distelbarth and Hermann Schwerdtfeger. Today, the media company is managed by Tilmann Distelbarth, a third-generation publisher and managing director. The second managing director is Bernd Herzberger.

The entire business is centred on the daily newspaper with a full editorial office. It is published Monday to Saturday under the titles Heilbronner Stimme, Hohenloher Zeitung and Kraichgau Stimme with a total sold circulation of approx. 89,500 (source: IVW 1/2015). A portfolio of nine different editions for the city and county of Heilbronn and the county of Hohenlohe are clear evidence of the newspaper's local competency. More than 245,000 readers (source: ma 2015) each day rely on the Heilbronner Stimme. Its clear structure and design make it one of the most advanced and reader-friendly regional dailies in Germany and the most important advertising medium in the region. Through its subsidiaries Delta Medien Service GmbH Heilbronn, Werbung Marketing & Verlag GmbH & Co. KG in Bretten and the pro Verlag und Service GmbH & Co. KG in Schwäbisch Hall, the media company also publishes a range of weekly newspapers and high-quality monthly magazines. The company's service offering is further complemented by the mail service provider RegioMail GmbH.

As an innovative media company, the firm sells cross-media advertising packages and links regional content from print and digital sources. Its digital offering is complemented by the Internet portals www.stimme.de, www.stimmt.de, www.jobstimme.de, www.immostimme.de, and the Internet-TV channel www.stimme.tv. In addition, the print version of the daily newspaper is also available online both as an e-paper and as an iPad app.

Cutting-edge production technology and a dedicated quality management team ensure an ongoing optimisation of the production quality using continuous quality monitoring as well as comprehensive analyses of extensive test and measurement series. With a major investment in a new newspaper rotary press in 2014, the Heilbronner Stimme has gone even further both to fulfil its own high quality standards and enable a flexible and cost-oriented production in a challenging market environment. Moreover, the company consistently invests in its digital work flow, its IT as well as its printing and mailroom technology to support its cutting-edge newspaper production in a sustainable way.

H.M.V.L is a sister concern of HT Media Ltd. HMVL, publisher of Hindustan, one of the India's leading Hindi language dailies. Its first edition published on 12 April 1936 from Delhi & now extends to Bihar, Jharkhand, Uttar Pradesh, Uttarakhand & Delhi.

HMVL has been named by Forbes as one of the best under a billion companies in the Asia pacific region. It is one of the 35 Indian companies that have found a place on Forbes Asia's list of 200.

Why INCQC?

INCQC is the only worldwide printing Competition by which we can compare our product quality internationally. INCQC competition familiarizes ourselves with the relevant ISO standards & new Changes in ISO. It encourages to improve the product quality of Reproduction as well as develop best practices to achieve the new Standard. INCQC certificate shows that our print Quality is of a high standard. It is a tools by which we calibrated out print quality by International jury. After Certification Achievement we plan to analyze the results, identify areas to improve and make an action plan to excel further.

Infoglobo is one of the biggest newspaper company in Brazil. O Globo is our oldest title and we are responsible for the all process (since the content production until the subscribers' newspaper delivery). We are also responsible for another three titles: Extra, Expresso and Valor Econômico. Nowadays Infoglobo is turning to be a press center in Rio de Janeiro, accumulating almost all of the titles that circulate in the state.

Why INCQC?

This was the second time that we participate and we could keep our newspaper between the INCQC members. Our crew was fully committed with this challenge in order to achieve the result. The operation team deserve this award.

J. Esslinger GmbH & Co. KG

Pforzheimer Zeitung

The Pforzheimer Zeitung, the flagship title of J. Esslinger GmbH & Co. KG, is by far the most important news provider of its region. It also publishes PZ-Extra, the leading advertising journal of the region and INFO, a monthly guide to events, activities and attractions.

Standstill is an alien concept for the publisher Albert Esslinger-Kiefer, the executive editor Thomas Satinsky and their staff. Publishing a printed newspaper is not enough these days. With its web presence www.pz-news.de, the Pforzheimer Zeitung demonstrates that it is well equipped to meet the digital challenges of the future.

Total Environment

The Hindu, currently India's second-largest circulated English daily newspaper with a net paid circulation of 1,518,082 (ABC: July-Dec. 2015), is one of the country's oldest newspapers, founded in 1878 with Indian nationalism at its core. Apart from the morning English daily, the Group, owned by Kasturi and Sons Limited, publishes the business newspaper The Hindu Business Line, a general interest fortnightly, Frontline, a sports weekly, Sportstar and a Tamil Daily "The Hindu". The Hindu is printed in 18 centres across the country.

With its headquarters in Chennai, The Hindu has been a pioneer on many fronts, with several firsts to its credit in terms of technology and other aspects. Some of the landmarks are: ROP colour (1940); using aircraft for distribution (1963-1978); facsimile system for full page transmission (1969); photo-composing (1980); in-house colour separation process (early 1982s); full-page integration of text and graphics in page make-up and remote imaging (1993); online edition (1995), semi-commercial printing of the newspaper (1999), and computer-to-plate (2004). Two of the presses are heat-set ones. All the editions are colour-capable, with varying total colour configurations, with a maximum of 24 colour pages.

The Group has about 800 full-time journalists, with nearly 600 of them working for The Hindu. It has a wide network of full-time and part-time correspondents and photographers across India. A string of foreign correspondents provide an Indian perspective to the developments in world capitals. The newspaper has a unique structure of sub-regional editions. Together, there are about 43 separate versions brought out every day, with changes in at least a couple of the pages in each. On an average, about 300 pages are produced every night.

Gemeinden fordern vom Land 20 Extra-Millionen für die Kitas

Ministerin Alheit wehrt sich gegen Vorwürfe der Kommunen – Awo-Chef will Beitragsfreiheit

VON JÜRGEN KOPPELIN

KIEL. Der Streit im Norden um steigende Kita-Gebühren und die Finanzierung der Kinderbetreuung verschärft sich. Der Gemeindetag verlangt angesichts wachsender Betreuungskosten mehr Geld vom Land. Das Sozialministerium verweist auf bereits beschlossene Maßnahmen. Der Awo-Landesverband hält die Einführung des Kita-Geldes für Eltern von Krippenkindern ab 2017 angesichts steigender Gebühren für wirkungslos und fordert beitragsfreie Kitas.

Wie berichtet, erhöhen immer mehr Kommunen die Kita-Gebühren. Dies sieht auf massive Kritik der Kita-Landesverbände. Geklagt wird sie nun auch von Awo-Landesgeschäftsführer Michael Selck: „Frühkindliche Bildung darf nicht vom Geldbeutel der Eltern abhängig sein, derzeit ist aber genau dies der Fall." Zudem verpuffe der Effekt des ab Januar 2017 gezahlten Kita-Geldes für Eltern von 300 Euro im Monat, wenn eine Kommune nach der anderen Kita-Gebühren anhebe.

Auch Sozialministerin Kristin Alheit (SPD) monierte: Wenn einzelne Gemeinden mit Vereinbarungen über Gebührenerhöhungen überhaupt nichts zu tun."

Dafür verantwortlich seien vielmehr vier Entwicklungen: stark steigende Flächenschlüssel für unter dreijährige Kinder, längere Betreuungszeiten für Drei- bis Sechsjährige, gestiegene Personalkosten durch Anhebung von Erzieher-Gehältern plus Tarifsteigerungen sowie der Rückzug freier Träger aus der Kinderbetreuung. Um dies aufzufangen, müsse das Land die 70 Millionen Euro aus dem Topf des kommunalen Finanzausgleichs auf 90 Millionen aufstocken, die Stunde müsse dann jedes Jahr automatisch um 2,5 Prozent steigen. Seit 2011 sei die jährliche 70-Millionen-Förderung für Kitaplätze nicht mehr erhöht worden, Ministerin Alheit wies auf die zukünftige Elternentlastung durch das Kita-Geld ihre Gebühren wieder erhöhten, sei dies „nicht nachvollziehbar oder unpassend". Den Eltern ebenfalls nicht vermittelbar sehen die unterschiedlich hohen Gebühren in den Gemeinden.

Der Geschäftsführer des schleswig-holsteinischen Gemeindetags, Jörg Bülow, wertet die Kritik zurück: „Die Gemeinden sind zu Gebührenerhöhungen gezwungen, weil sie ihre finanziellen Belastungen nicht mehr tragen können." Überrascht sei man, dass das Land das Kita-Geldes bar mit den Gebührenerhöhungen überhaupt nichts zu tun."

> **Die Einführung des Kita-Geldes hat mit den Gebührenerhöhungen überhaupt nichts zu tun.**
> Jörg Bülow, Geschäftsführer des Gemeindetags

Hoffnung umstritten: die Kosten der Kita-Betreuung. FOTO DPA

Debatte um die Chefarzt-Gehälter

KIEL. Der Steuerzahlerbund will den UKSH-Chefärzten ans Geld. Nach Wille des Verbandsgeschäftsführers Alexander Kleinschmit soll die Regierung das Gehaltssystem im Zuge der Reform der Hochschulmedizin wirtschaftlicher und transparenter machen. Die rund 80 Chefärzte in Kiel und Lübeck dürfen die Grundgehalt (rund 75 000 Euro durch Privatliquidationen aufbessern und verdienen so in Einzelfällen nicht als eine Million Euro im Jahr.

» SCHLESWIG-HOLSTEIN | 9

Zehn Milliarden für die Rüstung

KIEL. Der Kurswechsel bei der deutschen Verteidigungspolitik wird auch Schleswig-Holsteins Wirtschaft neue Impulse geben. Bis zu zehn Milliarden Euro sollen bis 2020 zusätzlich in Rüstungsgüter für die Bundeswehr investiert werden, hieß es am Donnerstag beim Wehrtechnikdialog in Kiel. Die Branche beschäftigt im Land rund 4000 Menschen, davon mehr als 4200 im Raum Kiel – Tendenz steigend.

» WIRTSCHAFT 18

Jetzt kommt's richtig dicke

VON PETER WITTMEIER

Bud Spencer wurde immerhin 86, und Heinz Calmund ist auch schon 67 – aber vielleicht sind sie die berühmte Ausnahme. Die Regel jedenfalls lautet: Jedes Kilo Übergewicht verkürzt die Lebenszeit. Und zwar deutlich und nachweisbar, wie die bislang umfassendste Studie zu diesem Zusammenhang zwischen Gewicht und Sterblichkeit zeigt. Für Menschen mit mäßigem Übergewicht verkürzt sich die Lebenserwartung um ein Jahr, bei Menschen mit moderater Adipositas sind es drei Jahre, stark. Übergewichtige verlieren sogar zehn Jahre, hat ein internationales Forscherteam festgestellt.

„Bei Menschen mit starkem Übergewicht liegt das Risiko einen Teden vor dem 70. Lebensjahr bei eins zu eins", erklärt Hauptautor Emanuele Di Angelantonio von der Universität Cambridge. Typische Folgen sind Krankheiten, Schlaganfälle, Krebs und Atemstörungen, Einschränkungen mit nicht-steigendem Übergewicht spürbar und messbar zu. Von dem erhöhten Sterberisiko bei Übergewicht sind Männer der Studie etwas deutlich stärker betroffen als Frauen. Die Relevanz der Untersuchung liegt ihren Autoren zufolge in der breiten Einbeziehungsmöglichkeit. Insgesamt wurden die Daten von 3,9 Millionen Menschen ausgewertet, die zwischen 1000 und 2015 für empfehlenswerte Einzelstudien gesammelt werden waren.

Ernährt haben die Forscher auch, dass überall jeder dritte Mann (33,8 Prozent) übergewichtig und jeder siebte in Europa durch Übergewicht verursacht wird. Die erhöhte Sterberate in Nordamerika könnte auch andeuten zum Normalfall werden, wenn sich der bestehende Trend zur Fettleibigkeit auch in anderen Weltgegenden fortsetzen, warnen die Autoren.

Kieler Nachrichten (KN) is the only daily newspaper published in Kiel, the main city in the German Federal State of Schleswig-Holstein. Publisher is the Kieler Zeitung Verlags und Druckerei KG-GmbH & Co. Together with its regional editions (Eckernförder Nachrichten, Holsteiner Zeitung, Kiel lokal, Ostholsteiner Zeitung, Segeberger Zeitung) it has a sold circulation of 101,428 copies.

The first KN edition was published on 3 April 1946 after a licence had been granted to the CDU party by the Allied powers. Later on the newspaper followed on the tradition of the Kieler Zeitung, founded in 1864, and the Kieler Neueste Nachrichten that had been founded in 1894.

Axel Springer AG held a 24.5 percent share in the publishing company up to February 2009, after which time it sold its share to the Madsack publishing company in Hanover. The SPD party has a 20.4 percent participation in the Madsack group through its media holding dd vg.

The Kieler Nachrichten newspaper building is located on Asmus-Bremer-Platz, between Holzenstrasse and the town hall. .

Kieler Nachrichten offers various free newsletters via the Internet.

Masar Printing and Publishing

Al Bayan

UAE, Dubai based newspaper, Al Bayan, is one of the leading newspapers in the UAE. The newspaper has a wide reader-base that includes senior CEOs and policymakers. The newspaper has become a reliable source of the latest news locally, regionally and internationally.

The newspaper staff is made up of more than 200 professionals, with distinguished expertise and capabilities. Moreover, the newspaper bought the latest technologies and equipment in media industry today.

Besides its widespread diffusion, the website of the newspaper has underscored the newspaper's position at the forefront among other news websites, by scoring first place and occupying the most popular website in the United Arab Emirates.

Al-Bayan newspaper was established in Dubai at the beginning of 1980. The first issue of the newspaper was published on May 10, 1980.

As a member of DMI, Al Bayan is printed at "MASAR Printing & Publishing", the leading high quality printing & publishing. MASAR's Man-roland Cromoman 70 semi commercial is set up with 4 heatset and 12 coldset towers. It houses four dryers and after burners plus three state-of-the art folder units to cater for folding flexibly according to the job with staggering speed of 70 000 cph.

Why INCQC?

INCQC has given us a lot of scope to improve the quality of our printed products. Also it has given us the opportunity to get a confirmation from an independent organization that we print to high quality standards. It is a validation for the staff that they are performing well and conform to ISO standard. It also helps us demonstrate to our print customers that we can consistently produce a high quality product.

Sport 360

Launched on 29 September 2010, Sport 360° is a daily sports newspaper which offers, for the first time ever, comprehensive sports coverage in the United Arab Emirates with standards of excellence on par with the aspirations of the nation. It is published by Gulf Sports Media, an Abu Dhabi based media company which also produces our website both in English and Arabic, www.sport360.com Sport 360°'s goal is to be an effective tool in helping the United Arab Emirates achieve its ambition of becoming an international sports hub, by providing a unique platform through which organizers will have a dedicated communication channel with their core audience, and by enhancing the communication between the United Arab Emirates and the rest of the sporting world.

Having forged strategic partnerships with some of the leading sport media companies from around the globe, Sport 360° offers in-depth coverage, stunning photography, innovative design, professional analysis and compelling reporting by renowned regional and international columnists, making it a must-have for all sport enthusiasts. Sport 360° provides the very latest news from around the globe on all major sports events: from the cricket fields to the football pitches, from the horse racing tracks to the Formula 1 circuits and from the tennis courts to the golf courses. Sport 360°'s website is a doorway to user engagement and debate, and enables all sport enthusiasts to share their passion, photos, videos and opinions with the Sport 360 team, and to find each other through sport. Sport 360° is the first newspaper in the United Arab Emirates to be audited by the BPA within the first year of operation, reporting a certified daily circulation figure of 36 672 (updated from 2014 statistics), with an estimated daily readership of 151 000.

Sport360 is printed at "MASAR Printing & Publishing", the leading high quality printing & publishing. MASAR's Manroland Cromoman 70 semi commercial is set up with 4 heatset and 12 coldset towers. It houses four dryers and after burners plus three state-of-the art folder units to cater for folding flexibly according to the job with staggering speed of 70 000 cph.

TODAY wishes its Muslim readers Selamat Hari Raya Aidilfitri

BEIJING 'SHOULD PREPARE FOR MILITARY CONFRONTATION' IN DISPUTED WATERS

China adopts muscular stance as it kicks off South China Sea drills

Editorials in state-run Global Times newspaper say dispute complicated by US intervention

BEIJING – China's influential state-run Global Times newspaper said yesterday that the country should prepare for military confrontation in the South China Sea, heightening tensions days before a ruling by an international court hearing competing claims by China and the Philippines in the strategic waterway.

In joint editorials published in both its Chinese and English editions, the newspaper said that the South China Sea dispute had already been complicated by American intervention and now faced further escalation because of the threat posed by the tribunal to China's sovereignty.

"Washington has deployed two carrier battle groups around the South China Sea, and it wants to send a signal by flexing its muscles: As the biggest powerhouse in the region, it awaits China's obedience," the Global Times said.

China should speed up developing its military deterrence to give the United States a bloody nose if it intervened in the dispute by force, the newspaper added.

"China hopes disputes can be resolved by talks, but it must be prepared for any military confrontation. This is common sense in international relations."

The editorials by Global Times, which is published by the ruling Communist Party's official People's Daily, come as China yesterday kicked off week-long military drills in the disputed Paracel Islands in a show of force.

The Permanent Court of Arbitration in The Hague is expected to issue a ruling on July 12 on a case brought by the Philippines in 2013 contesting China's claims in the South China Sea. China insists that the tribunal has no jurisdiction over the case.

Zeitenwende in Europa

ENTSCHEIDUNG Die Briten stimmen knapp für einen Austritt aus der Europäischen Union.

REAKTIONEN Politik und Wirtschaft sind entsetzt. Die Konsequenzen sind noch unklar.

LONDON/BRÜSSEL/REGENSBURG. Die Briten haben für den Austritt aus der EU gestimmt und stürzen den Staatenbund damit in die schwerste Krise seiner fast 60-jährigen Geschichte. In einem historischen Volksentscheid stimmten 51,9 Prozent für den Brexit. Premierminister David Cameron, der für einen Verbleib geworben hatte, kündigte seinen Rücktritt bis spätestens Oktober an. Er versicherte, dass Regierung und Parlament den Volkswillen respektieren und mit der EU den Austritt aushandeln werden.

So steht die schottische Regierungspartei SNP nun einem neuen Volksentscheid zur Loslösung von London an, um allein in der EU verbleiben zu können. Die Wahlbeteiligung lag bei 72 Prozent. Insgesamt stimmten 17,4 Millionen Wähler für den Brexit, 16,1 Millionen dagegen.

Mit dem Austritt der Briten verliert die EU nach 43 Jahren London als die Finanzhauptstadt der Welt, ihre zweitgrößte Volkswirtschaft und das Land mit der drittgrößten Bevölkerung. Zudem ist das Land – zusammen mit Frankreich – einer von zwei EU-Staaten mit Atomwaffen und ständigem UN-Sicherheitssitz.

Bundeskanzlerin Angela Merkel (CDU) sagte, die EU sei stark genug, um die richtigen Antworten zu geben. Bundespräsident Joachim Gauck rief dazu auf, den Blick nach vorne zu richten. Der Austritt der Briten sei „nicht der Anfang vom Ende der Europäischen Union".

Die Stunde der Populisten

Die internationalen Finanzmärkte reagierten mit Kursstürzen. Das Pfund Sterling erreichte den tiefsten Stand seit 1985. Experten befürchten eine Wirtschaftskrise, Jobverluste und einen Währungsverfall. Die britische Zentralbank kündigte notfalls massive Stützungsmaßnahmen an. Man könne bis zu 250 Milliarden Pfund in die Hand nehmen.

Rechtsparteien in Europa jubilierten. Erste Forderungen nach Referenden in anderen EU-Staaten werden laut. Auch dem Vereinigten Königreich selbst könnte ein Zerfall drohen.

Die Region ist betroffen

Die Folgen der Entscheidung wird auch die ostbayerische Wirtschaft zu spüren bekommen. „Unsere Region weist eine Exportquote von 55 Prozent auf", sagte der Hauptgeschäftsführer der IHK Regensburg für Oberpfalz/Kelheim, Dr. Jürgen Helmes. Im Kammerbezirk unterhalten 240 Unternehmen Wirtschaftskontakte zu Großbritannien – etwa ein Viertel sind gemäß der regionalen Wirtschaftsstruktur Maschinenbauer.

Der Autobauer BMW ist auch in Großbritannien aktiv. BMW-Sprecher Jan-Henning Begley spricht von einer Zeit der Unsicherheit, die nun beginne. „Wir erwarten jedoch zunächst keine unmittelbaren Auswirkungen auf unsere Aktivitäten in Großbritannien," sagt Begley. Bertram Brossardt, Hauptgeschäftsführer der Vereinigung der bayerischen Wirtschaft, forderte, die EU müsse aus dem Referendum Lehren ziehen und „die Ursachen für Austritts-Bestrebungen bekämpfen". Neue Ausweispflicht

SICHERHEIT Der Bundestag beschließt Anti-Terror-Paket

BERLIN. Wer eine Prepaid-Karte fürs Handy kaufen will, muss dazu künftig einen Ausweis vorlegen. Die Regelung gehört zum neuen Anti-Terror-Gesetzespaket, das der Bundestag am Freitag in Berlin beschloss. Die Ausweispflicht soll verhindern, dass Terrorverdächtige anonym telefonieren können. Außerdem will die Regierung mit dem Gesetz den Austausch von Geheimdienstinformationen ausweiten. Das Bundesamt für Verfassungsschutz soll in Zukunft gemeinsame Dateien mit „wichtigen ausländischen Nachrichtendiensten" einrichten und betreiben können. Die Bundespolizei soll künftig verdeckte Ermittler einsetzen dürfen. (dpa)

The Mittelbayerische Zeitung is based in Regensburg, Germany. Since its establishment in 1945 the publishing company has been a family-owned business. Today, it is managed by Mr Peter Esser and Mr Thomas Esser as Managing Partners, representing the third generation of the publisher family.

Over the past decades, society in general, the media landscape and the culture of information have undergone radical changes. That is the environment in which the publishing company operates: A large number of publishing products and services form the daily offering of local, regional and national information for the citizens of this East Bavarian region.

With its 13 regional editions and approximately 400,000 readers a day, the Mittelbayerische Zeitung is the number 1 media product in the Upper Palatinate and Lower Bavaria regions.

Centred in Regensburg, the newspaper's circulation area spans roughly 130km (80 miles) from East to West and 145km (90 miles) from North to South. The printing centre employs approximately 30 staff to produce a wide range of print products. Almost 3,500 employees work to distribute the daily newspaper and advertising journals.

Every day, our printing centre handles extraordinarily high printing volumes. The daily newspaper is published from Monday through Saturday with an average circulation of 120,000 copies per day. Using our cutting-edge printing press we are able to print 45,000 four-colour copies per hour comprising up to 72 pages.

Apart from the newspaper, the company produces a range of other local media products, such as Die Rundschau, the publisher's advertising journal with its seven editions and a wide range of special publications with a yearly circulation of more than 54 million copies. Newspapers and advertising journals are equipped with inserts (approx. 300 million p. a.) in fully-automatic mode and with particular focus on the relevant target groups.

In addition, the company produces high-quality inserts for third-party customers with a circulation of 264 million copies per year.

This offering is rounded off by our online news site, our business newspaper and our glossy magazines with their exciting content.

Our participation in this context was motivated by the desire to permanently review and optimise our internal and external processes from data reception through to printing operations.

Since we produce a large number of high-quality inserts for third-party customers, we were also motivated by the prospect of achieving an external quality certificate with strong reputation.

New Straits Times is an English-language newspaper published in Malaysia. It is Malaysia's oldest newspaper still in print (though not the first), having been founded as The Straits Times in 1845, and was reestablished as the "New Straits Times" in 1974. The paper served as Malaysia's only broadsheet format English language newspaper. However, since 18 April 2005, the newspaper is published only in tabloid size, ending a 160-year-old tradition of broadsheet publication.

The New Straits Times is printed and published by the New Straits Times Press (M) Berhad (or NSTP), which also produces two other newspapers, namely the Malay language Berita Harian and Harian Metro. In addition to these, NSTP also publishes several digital magazines.

The New Straits Times is owned by Media Prima Berhad, a fully-listed company in the Kuala Lumpur Stock Exchange. Media Prima Berhad is a fully integrated media company in Malaysia that has equity interests in television stations, newspapers, radio stations, and digital media.

Why INCQC?

The New Straits Times Press (M) Berhad has participated in the INCQC contest for almost 10 years. Initially our participation was simply to establish where we stood against the INCQC benchmarks. Having established that, we then charted a long-term plan to bring about a change in the mindset of our staff and in the work culture in place.

The intention has always been to make the changes real and permanent using the INCQC benchmarks and to make membership in the INCQC an on-going thing.

We continued our participation and amidst the implementation of base programs such as the 5S program, we made slow progress and although NSTP did not manage to qualify in the earlier rounds, we saw substantial improvements.

We are pleased to finally achieve qualification this time around. It is a validation of our long-term strategy and the culmination of an intensive program over 16 months to get all of our equipment to the desired levels, especially our presses.

We plan to continue improving by putting in place a more comprehensive QC structure that will be able to support operational teams in a more effective manner by utilizing and disseminating all the lessons learned along the way.

We believe that our experience thus far will enable us to become more consistent in maintaining our colour and print quality to the standards required.

Die Rechnung für die Tankfüllung wird teurer

Von Friederike Zörner

Der Rohölpreis steigt. Das freut die Förderstaaten und -firmen, ärgert aber die Verbraucher. Im Nordosten zeigt man sich angesichts der Mehrkosten gelassen – noch.

NEUBRANDENBURG. Die Zeiten des günstigen Sprits sind vorbei. „Mittelfristig werden die Preise weiter moderat steigen", sagt Christian Hieff, Sprecher des ADAC Hansa. Berechnungen des Automobilclubs zufolge koste te ein Liter Super E10 im Mai im Monatsdurchschnitt 1,304 Euro und damit 3,6 Cent mehr als noch einen Monat zuvor. Eine noch deutlichere Preissteigerung gab es beim Diesel: Hier kletterte der Preis um 4,9 Cent auf 1,086 Euro. Als Grund dafür wird der Rohölpreis angegeben, der sich seit Beginn des Jahres kontinuierlich erhöht hat. Wer jetzt vor der Entscheidung stehe, sollte der Versuchung widerstehen, einen neuen Pkw mit hohem Verbrauch zu kaufen. „In drei bis fünf Jahren haben wir andere Spritpreise", so Hieff.

Auch im Nordosten spiegeln sich die Entwicklungen auf dem Weltmarkt an den Zapfsäulen wider. Hierzulande gibt es zudem erhebliche regionale Unterschiede. Am späten Freitagnachmittag kostete der Liter Benzin in Neubrandenburg 1,26 Euro. In Anklam waren es 1,29 Euro, in Waren an der Müritz 1,28 Euro und in Prenzlau 1,34 Euro. Beim Vergleich der Dieselpreise offenbarte sich eine noch größere Differenz: Kostete der Liter in Neubrandenburg 1,02 Euro sowie in Waren und Anklam 1,06 Euro, mussten im uckermärkischen Prenzlau sogar 1,12 Euro pro Liter bezahlt werden.

Von den gestiegenen Kraftstoffpreisen seien vor allem Speditionen betroffen, die Fuhrunternehmen betroffen, sagt Volker Hirchert von der Industrie- und Handelskammer (IHK) für das östliche Mecklenburg-Vorpommern. Die aktuellen durchschnittlichen Preise seien jedoch im Vergleich zum Vorjahr noch immer wesentlich günstiger. Während Anfang Juni 2015 ein Liter Diesel in Deutschland im Durchschnitt noch 1,22 Euro kostete, waren es 2014 sogar 1,37 Euro. Viele Fuhrunternehmen haben Hirchert zufolge mit ihren Auftraggebern eine Gleitklausel, auch Dieselfloater genannt, vertraglich vereinbart. „Das bedeutet, dass mit den steigenden Dieselpreisen eine Erhöhung der Frachtkosten einhergeht."

Für Elektromobilität fehlt das Netz

Das kann Sebastian Osterland, Assistent der Geschäftsführung der Spedition Gertner bestätigen. „Wir haben ein Industrie- und Handelskammer (IHK) für das östliche Diesel floater mit größeren Kunden." Mit diesem Modell bleibe das Unternehmen nicht auf höheren Sprit-Kosten sitzen. Sinken die Preise, könnten Kunden hingegen gleichermaßen bei den Frachtkosten profitieren. In der Spedition in Altentreptow gehe es 40 Fahrzeuge, die alle mit Dieselkraftstoff betankt werden. „Wir bezahlen rund fünf Cent mehr je Liter seit Januar dieses Jahres", so Osterland. Auch Taxiunternehmer Guido Sembach aus Anklam bemerkt den Preisanstieg bei den 14-tägigen Abrechnungen mit seiner Vertragstankstelle. Seine sechs Mitarbeiter fahren allesamt Dieselfahrzeuge. Die höheren Kosten an den Zapfsäulen würden nicht auf die Kunden abgewälzt. „Wir haben Glück, denn wir konnten in den vorherigen Monaten bei den Spritpreisen sparen", so Sembach. Seine Mitarbeiter seien nichtsdestotrotz angehalten, wirtschaftlich zu fahren.

Angesichts der steigenden Ausgaben für Kraftstoff wirde sich Sembach gerne auch mit dem Thema Elektromobilität beschäftigen. „Aber das Netz ist hier einfach noch nicht da."

NACHRICHTEN

Schärfere Regeln für Waffenbesitzer

LUXEMBURG. Nach den Pariser Terroranschlägen müssen Waffenbesitzer in Europa mit härteren Auflagen rechnen. Die EU-Innenminister einigten sich am Freitag in Luxemburg auf neue Regeln. Demnach müssen künftig etwa Schreckschusswaffen bei Behörden registriert werden. Zudem soll der Waffenhandel im Internet besser kontrolliert werden. Die Staaten müssen außerdem sicherstellen, dass sich sogenannte Dekowaffen nicht mehr zu einer scharfen Waffe zurückbauen lassen. Die Pläne sind allerdings umstritten. Polen und Tschechien lehnen zusätzliche Auflagen ab. Luxemburg sind die angedachten Änderungen viel zu lasch. So sollen künftig zwar die Auflagen für besonders gefährliche halbautomatische Gewehre zwar strikter werden. Die EU-Staaten können die Nutzung aber weiterhin erlauben. Besitzer müssen dann medizinische und psychologische Tests vorlegen oder eine Mitgliedschaft in einem Sportschützenclub nachweisen.

Brandserie in Neubrandenburg

NEUBRANDENBURG. Gleich zu drei Großbränden wurden am Freitag die Feuerwehren Neubrandenburgs und der Umgebung gerufen. Am Morgen brannte es in einer Produktionshalle in Trollenhagen. Weil Natriumhydroxid aus einer Leitung austrat, wurde die Belegschaft sofort evakuiert und Anwohner sollten Türen und Fenster geschlossen halten. Diese Warnung gab es ebenfalls am Nachmittag, als es bei einer Entsorgungsfirma brannte. Beim dritten Einsatz in der Woldegker Straße musste ein Sperrmüllhaufen gelöscht werden. Die Flammen griffen auf die benachbarte Wohnung über. Laut Polizei mussten zwei Menschen mit Verdacht auf Rauchgasvergiftung behandelt werden. ca Mehr auf Seite 17

Reiniger statt Wasser serviert

AACHEN. Zwei Frauen haben in einem Restaurant in Herzogenrath Spülmaschinenreiniger aus einer Mineralwasser-Flasche getrunken und sind mit Verätzungen der Speiseröhren ins Krankenhaus gekommen. Ein Mitarbeiter habe zugegeben, Reiniger in die Flasche gefüllt zu haben, teilte die Staatsanwaltschaft Aachen am Freitag mit.

Nach ersten Erkenntnissen sei die Flasche den Frauen nach einer „Verkettung unglücklicher Umstände" am Tisch serviert worden. Es werde wegen fahrlässiger und nicht mehr wegen gefährlicher Körperverletzung ermittelt. Die 65 und 88 Jahre alten Opfer erlitten schwere Verletzungen und mussten auf der Intensivstation behandelt werden.

Nordkurier Mediengruppe, Nordost-Druck GmbH & Co. KG

Nordkurier Mediengruppe is the leading media company in the north eastern area of Germany. We are publishing 14 daily newspapers, weekly newspaper editions and various printed magazines, running several local television stations, offering postal services, corporate publishing, direct marketing, events and are operating a major online platform for tourism. With 81 500 sold copies our newspapers reach round about 244 000 readers in Mecklenburg-West Pomerania and Brandenburg on a daily basis. The online news portal nordkurier.de is the market leader in Mecklenburg-West Pomerania with nearly 1.2 million visits.

Our state of the art printing centre (Nordost-Druck) is located in Neubrandenburg and is providing services even for external customers, further information can be found on www.nordost-druck.de.

Why INCQC?

Nordkurier Mediengruppe is one of the first publishing houses worldwide participating in the QUIZ-project (April 2000) and has been establishing a standard profile to fulfill the ISO-norm 12647-3 in the early days. Using an integrated standardised colour management is a very important philosophy in our company.

Our employees' skills, performance, competencies, their motivation and inspiring identification with our products are decisive factors for our success.

NZME.

Chinese Herald

The New Zealand Herald was founded by William Chisholm Wilson, and first published on 13 November 1863.

The paper was purchased in 1876 by Alfred Horton. During 1876 the Wilson family and Horton joined in partnership, Wilson and Horton remained the owners until 1996 when Tony O'Reilly's Independent News & Media Group purchased the company.

More recently, we changed our name to New Zealand Media and Entertainment (NZME) as a result of bringing together three New Zealand media brands, APN NZ, The Radio Network (TRN) and GrabOne and unifying them under one overarching banner. The result is an organisation with a portfolio of radio, digital, e-commerce and print brands producing fantastic content, targeting New Zealand audiences.

Why INCQC?

WAN-IFRA colour completion challenged our team to better understand our production and printing processes

"Grupo Estado" is one of the largest media companies in Latin America and present in print, radio and digital. It offers 24 hours information and is available where the user is. The editorial mission of the company follows principles set out in a Code of Ethics. The group is composed by "S.A. O Estado de S. Paulo", "Agência Estado", "S. Paulo Distribuição e Logística S.A.", "Planeta Digital" e "Rádio Eldorado".

"O Estado de S. Paulo" is the oldest newspaper in São Paulo. It started publishing in 1875 under the name of "A Província de S. Paulo". The 16 founders created a republican journal to combat monarchy and slavery.

The initial print run of "A Província de S. Paulo" was 2,000 copies. After a new press was installed in 1896 circulation went up to 18,000. Through-out the course of the Old Republic (until 1930) the newspaper was put to side of the protesters addict known electoral system pejoratively as "bico de pena" characterised by open vote and fraudulent manipulation.

In 1930 the circulation was 100,000. A rotogravure Sunday supplement was started. The newspaper always maintained its line of support for representative democracy and free market economy. In 1966 "O Estado de S. Paulo" launched "Jornal da Tarde", a newspaper specially monitoring urban problems. In 1967 the circulation of "O Estado de S. Paulo" ex-ceeded 340,000 copies.

Despite the difficulties with the military dictatorship, "O Estado de S. Paulo" continued to diversify. In 1970 "Agência Estado" was started and in 1972 "Rádio Eldorado" went on air. In 1976 we changed "O Estado de S. Paulo", "Jornal da Tarde" and "Agência Estado" for the Bairro do Limão neighbourhood.

1993 the masthead logo of "O Estado de S. Paulo" become blue after the acquisition of two new color presses. 2000 the newsrooms of "Agência Estado", "O Estado de S. Paulo" and "Jornal da Tarde" were combined resulting in "Estadao.com.br" website, which had more than a million monthly visitors in 2013.

Market research conducted for decades shows that the newspaper enjoys greatest credibility. International organisations indicated several times that the newspaper was one of the most complete dailies, to be mentioned alongside the great European and American newspapers.

EPPING

Paarl Coldset is a print division of Novus Holdings, South Africa's leading and most technologically advanced professional printing and manufacturing group. With plants in Johannesburg, Cape Town, Port Elizabeth, Bloemfontein and Pietermaritzburg, Paarl Coldset produces a wide spectrum of daily, Sunday and weekly newspapers.

Coldset printing offers fast, economical printing on uncoated paper. Our network of plants is equipped with the most modern technology and efficient production processes in all areas including pre-press, press and post press. We cater for large and smaller print runs in broadsheet, tabloid and quarter fold formats for both high pagination and thinner products.

We have capacity to print one million copies per hour with 800 tabloid pages printed simultaneously. Inline stitching, gluing and trimming delivers finished product off the press. The process is best suited to absorbent papers, such as uncoated newsprint, bond and book paper, and can accommodate high quality, heavier grammage.

Why INCQC?

Reaching the ISO print quality standard in a minimum amount of copies was challenging for us due to the fact that our presses are 15 years old and does not consist of any automatic register or cutoff control systems. Participating in the competition, allowed us to revisit our process control and implement measures to strengthen our processes going forward.
In using the WAN IFRA self-check tool on a daily basis to measure our results, we gained better insight of the measuring process, understanding the print result and where to take corrective action in order to meet the ISO standard.

Also, the opportunity to do a test run before the competition, gave us the assurance that our measuring instruments were calibrated according to standard.

At Paarl Coldset we always strive to deliver the highest quality products for our clients and our acceptance into the INCQC confirms our vision. It also allows us to benchmark our printing quality against recognised international standards as we continue to improve our offering.
The membership also gives our client, Die Burger newspaper, the opportunity to market itself as a quality print product to relevant advertisers.

The Pressedruck Media Group is a family-owned business based in Augsburg, Germany. Its core product, the Augsburger Allgemeine, is one of the top five daily newspapers in Germany. In association with the Allgäuer Zeitung, the Augsburger Allgemeine is the highest-circulation subscription newspaper in Bavaria featuring a total of 25 editions. With a circulation of 320,900 copies, it reaches 780,000 readers every day. With effect from May 1, 2011 the Pressedruck Media Group acquired the Würzburg-based Main-Post Media Group. In addition, it acquired 51 percent of the shares in the Constance-based Südkurier Medienhaus per January 1, 2012. Almost two years later, on December 15, 2013, Pressedruck Media Group purchased the remaining 49% of shares in Südkurier Medienhaus from the Holtzbrinck Publishing Group.

Apart from the continuous development of its newspapers and online offerings, the Pressedruck Media Group has a strategic focus on expanding its media and services portfolio in a range of sectors including broadcast, TV, internet, call-centre, mail delivery, corporate publishing, and direct distribution.

Based in Augsburg, the Pressedruck Media Group is one of the cutting-edge media companies in Germany. With more than 40 operative entities, the company is a major employer in its region. The Pressedruck Media Group currently employs approximately 4,000 staff and provides vocational training for about 270 young people per year in 16 different job profiles.

As a forward-thinking company with a growth-oriented strategy we are operating in a highly dynamic environment with demanding requirements on the flexibility and know-how of our employees. Within our media group, we combine the attractiveness of a large corporation with the responsibility and sustainability of a family-owned business.

Pressehaus Stuttgart Druck GmbH is a company that produces a range of daily and weekly newspapers for the Stuttgart Newspaper Group as well as various print products for publishers, industrial and commercial companies. By printing the Stuttgarter Zeitung we are responsible for the print production of one of the large regional newspapers in the German-speaking area whose quality standards are on par with nationwide dailies.

In addition, we serve numerous publishing customers by producing a vast range of other daily and weekly newspapers as well as newsletters for customers, associations, trade fairs and industrial companies. Magazines and programme brochures also form part of our repertoire as do industrial catalogues for the automotive industry, magazines, and advertising inserts. Our strength is not only based on our versatility and our cutting-edge newspaper production technology but also – even more important – on the fact that we assist and support our customers in a highly professional manner from the idea to the finished product and its mailing.

B 10 und A 6 sind am Wochenende gesperrt

KAISERSLAUTERN. Am Wochenende sind zwei wichtige Verkehrsadern der Pfalz gesperrt. Auf der A 6 wird vom morgigen Samstag, 10 Uhr, bis Sonntag, 24 Uhr, zwischen dem Autobahndreieck Kaiserslautern und der Anschlussstelle Landau-Mitte in beiden Richtungen gebaut. Während dieser Zeit dürfen dort keine Autos fahren. Eine weitere Vollsperrung betrifft die Landesstraße 509 (B 10) zwischen Landau und Annweiler. Dort wird ab Samstag, 6 Uhr, bis Montag, 5 Uhr, eine Fahrbahnbrücke über die Queichtalbahn abgerissen. Die Arbeiten auf der B 10 sind Teil der Generalsanierung der Südwestbahn; und Montag, 6 Uhr, soll der Bahnverkehr wieder rollen. Die Umleitungsstrecken sind ausgeschildert. Weitere Informationen gibt es unter www.bahn.de/suedwestbahn. RHEINPFALZ

EM-Gastgeber Frankreich im Finale gegen Portugal

Antoine Griezmann schoss EM-Gastgeber Frankreich gestern Abend in Marseille nach 2:0 (1:0)-Sieg im Halbfinale gegen Deutschland. Im Endspiel treffen die Franzosen nun am Sonntag, 21 Uhr, im Stade de France in Saint-Denis auf Portugal. In der Nachspielzeit der ersten Halbzeit schoss Antoine Griezmann (Bild) Frankreich mit einem Foulelfmeter in Führung, den Bastian Schweinsteiger verursacht hatte. Ein fataler Fehler des deutschen Mannschaftskapitäns, der ansonsten eine starke Leistung bot. Kurz nach Griezmanns Treffer sorgte Germanys nach ex-neuen Bellverkauf von Joshua Kimmich und einer zu kurzen Abwehr von Torwart Manuel Neuer für das 2:0 (52.). Bild SPORT

Sexualstrafrecht:

Es gilt das Prinzip „Nein heißt Nein"

BERLIN/STRASBURG. Im Sexualstrafrecht gilt künftig das Prinzip „Nein heißt Nein". Das Europäische Parlament beschloss gestern einstimmig ein neues Gesetz, mit dem eine sexuelle Handlung auch dann als Vergewaltigung gewertet wird, wenn sich das Opfer nicht aktiv wehrt.

Zukunft kurz auch dann eine Straftat vor, wenn das Opfer durch Worte und Gesten deutlich macht, dass es mit sexuellen Handlungen nicht einverstanden ist. Mit der Neuregelung wird auch der Straftatbestand „sexuelle Nötigung" angeglichen, der bislang gegeben war, wenn sich das Opfer gegen Gewalt oder Androhung gewehrt hat.

Das Parlament reagiert mit dem neuen Gesetz auch auf die Silvesternacht in Köln.

aus Gruppen heraus begangen wurden. Gisela reagiert das Parlament auf die Kölner Silvesternacht, in der es zu massenhaften Übergriffen gegen Frauen gekommen war.

Der Generalsekretär des Europarats, Thorbjörn Jagland, begrüßte die Entscheidung. Sexuelle Gewalt gegen Frauen in Deutschland ein Einfallstag mit dem europäischen Abkommen unter Straße gestellt, erklärte er gestern in Straßburg. Nun müssten die Regierungen der europäischen Regierungen dann „endlich nicht einverständliche sexuelle Handlung" als Vergewaltigung anzusehen und unter Strafe zu stellen. SEITE 3

Hahn-Affäre: CDU stellt Misstrauensantrag

Oppositionschefin Julia Klöckner attackiert Ministerpräsidentin Malu Dreyer (SPD) nach dem faktischen Aus für den Flughafen-Verkauf an Investoren aus Schanghai. Dreyer spricht von betrügerischem Handeln des Käufers.

MAINZ. Vier Monate nach der gescheiterten Landtagswahl in Rheinland-Pfalz will die CDU-Fraktion Ministerpräsidentin Malu Dreyer (SPD) einen Misstrauensantrag stellen. CDU-Fraktionschefin Julia Klöckner sagte gestern in der Sondersitzung des Landtags, Dreyer habe den Verkauf des Flughafens Frankfurt-Hahn an die Shanghai Yiqian Trading Co. Ltd. (SYT) „mit allen Mitteln" durchgesetzt. Dreyer spricht von betrügerischem Handeln des Käufers.

Innenminister Roger Lewentz (SPD) sagte, nach den Recherchen seien keine Hinweise für die Beteiligung von Personen erfahren haben, führe die Landesregierung nach Schanghai. Auftrag der Woche gehe es zweifel unter anderem an der Richtigkeit der Angaben des Käufers. „Wenn es so sein, muss man von Betrug ausgehen", sagte Lewentz. Nachdem eine vereinbarte Zahlung nicht eingegangen war, reagierte er vergangene Woche mit dem Rücktritt vom Vertrag. Dreyer spricht von betrügerischem Handeln des Käufers.

Großbritannien:

Zwei Frauen ringen um Tory-Führung

LONDON. Eine Frau wird Großbritannien künftig regieren. Nach dem Rücktritt des glücklosen Premierministers David Cameron machen die beiden konservativen Politikerinnen Theresa May und Andrea Leadsom unter sich aus.

Leadsom May

Das ist das Ergebnis der gestrigen Vorabstimmung in der Parlamentsfraktion der Konservativen. Theresa May gewann 199 von 329 möglichen Stimmen, Energie-Staatssekretärin Leadsom bekam 84 Stimmen. Justizminister Michael Gove war bereits ausgeschieden. Die Entscheidung auf Platz drei und schied aus dem Rennen aus.

Die endgültige Entscheidung über die neue Premierministerin fällt Anfang September. Dann stehen die Siegerin/Siegerin per Briefwahl. Das Ergebnis soll am 9. September verkündet werden. Da die Tories die absolute Mehrheit im Unterhaus des Parlaments haben, gilt als sicher, dass es wird die Abfilterung automatisch auch Regierungschef. Premier Cameron hatte seinen Rücktritt wegen seiner Niederlage beim Brexit-Referendum angekündigt. jüp/dpa SEITE 4

Sieben Milliarden für Flüchtlingskosten

Landes-Finanzministerin Ahnen zufrieden mit Einigung über Bundeszuschuss

BERLIN. In dem heftigen Streit über die Flüchtlingskosten gibt es eine Einigung zwischen Bund und Ländern. Nach einem Spitzentreffen der Ministerpräsidenten mit Kanzlerin Angela Merkel (CDU) am Sonntag hat sich der Bund bereiterklärt, den Ländern eine Pauschale in Höhe von sechs Milliarden Euro zu überweisen. Eine weitere Milliarde Euro soll es für den Bau von zusätzlicher Wohnungen.

Die pauschale Bundeszuschuss soll über drei Jahre von 2016 bis 2018 gezahlt werden. Die Länder sollen damit zusätzliche Kita-Plätze, Sprachkurse, Ausbildungsförderungen und Maßnahmen für zusätzlichen Wohnungsbau finanzieren. Die Verwaltungen nach nahezu die Kosten nicht dem Bund nachgewiesen werden und können je nach Bedarf

und Notwendigkeit von den Ländern verwendet werden. Ein Betrag über die Ausgaben war ursprünglich eine Forderung von Bundesfinanzminister Wolfgang Schäuble (CDU), der Bundeskanzlerin Angela Merkel (CDU) hatte dies als Zusammenbrechen.

Allerdings berichten die Runde auch einen zweckgebundenen Zuschuss für den Bau von 100 000 sechs Milliarden-Pauschale können den Ländern eine zusätzliche Milliarde Euro für den Wohnungsbau überlassen. Die Summe wird in zwei Tranchen von jeweils 500 Millionen Euro in den Jahren 2017 und 2018 ausbezahlt. Die Länder müssen über die Verwendung der Gelder berichten. Seehofer sprach nach dem Treffen von einem „erreichten Verhandlungsergebnis".

Berlin kommt mit dem Milliardenzuschuss auch einer Forderung nach, die Rheinland-pfälzische Finanzministerin Doris Ahnen (SPD) seit Monaten gegenüber der RHEINPFALZ das Ergebnis der Runde positiv. „In dem Kostenzuschuss spiegelt sich auch die Forderung wider, dass nicht nur die Länder erhebliche Leistungen bei der Integration erbringen." Die Ministerin wies darauf hin, dass die Integrationspauschale zusätzlich zu den bisherigen Leistungen des harten Übernahme der Flüchtlingsbedingten Mehrkosten für die Unterkunft gezahlt werde. Das sind 2,4 Milliarden Euro für die Jahre 2016 bis 2018. Rheinland-Pfalz erhält davon den Südtiegen nach. Dessen Präsidentin, die Ludwigshafener Oberbürgermeisterin Eva Lohse (CDU), hatte nach den wochenlangen Ringen um die Kostenübernahme die Runde als „gute Nachricht" bezeichnet. Die Kosten seien unterlassenen oder geschwiegen Integration wären nun ein Vielfaches höher." SEITE 4

Nato: Merkel für Stärke und Dialog

BERLIN. Bundeskanzlerin Merkel (CDU) sieht hinter der Nato-Strategie gegenüber Russland eine gleichzeitig das Gespräch zu suchen. In ihrer Regierungserklärung zum heute beginnenden Nato-Gipfel in Warschau verteidigte sie gestern die Entscheidung, eine weitere Truppenstationierung in den östlichen Mitgliedstaaten. „Deutschland trägt zu diesen Maßnahmen substanziell bei", betonte Merkel. Deutschland werde in Litauen und Litauen mit mehreren Hundert Soldaten anführen. Russlands Ukraine-Politik habe die Nato-Mitglieder im Osten „zutiefst verstört", so Merkel. Sie sprach von einer „neuen Qualität" der Bedrohung. Rückversicherung durch die Allianz." Die Kanzlerin warb für die Wiederaufnahme der Kooperation mit Moskau, ist hinterte aber, dass es dafür „keine Basis" gebe, solange Russland Kurs vor dem Gipfel abgelehnt habe. Das Treffen ist nun für Mittwoch geplant. jüp SEITE 4

Die Rheinpfalz is the regional daily newspaper for the federal state of Palatinate. Distributed circulation: 224.447 copies daily (source: Audit Bureau of Circulation, first quarter 2014). Die Rheinpfalz reaches more than 670 000 readers daily, or 58 percent of population over 14 years of age.

The de-centrally organised publishing house today consists of 13 local editorial offices, four business offices and about 75 service points. Nearly 5000 Journalists, photographers, correspondents, publishing house staff, printing specialists and carriers provide Die Rheinpfalz readers with their morning news on seven days per week.

Ringier Print Adligenswil AG

Blick

Ringier Print is one of the most modern printing companies in Switzerland. It belongs to the Ringier publishing house and prints a number of other newspapers for publishers, associations, clubs and companies apart from its own newspaper products such as Blick, SonntagsBlick and Blick am Abend. "We make newspapers" is our motto. The vast experience of the team ensures that readers get newspaper products on time and in the highest quality. Ringier Print AG also produces advertising jobs in coldset optimally. Ringier Print AG supports its customers in project consulting, creation of newspaper products, during work and in the workflow of the preliminary printing stage as well as in handling of many other tasks, including optimum delivery preparation in addition to printing.

Why INCQC?
INCQC membership helps us to prove our quality to customers and support our promise. The distinction is included in brochures, leaflets, etc.

Russmedia Verlag GmbH

NEUE Vorarlberger Tageszeitung

The Neue Vorarlberger Tageszeitung (NEUE) was founded in 1972 as an alternative to the Vorarlberger Nachrichten. Since 1990, NEUE has belonged to Russmedia and is one of the few dailies in Europe to be published from Tuesday to Sunday.

Styria was involved with the paper before it was acquired by publisher Eugen A. Russ. These years gave rise to a still-existing cooperation with the Styrian Kleine Zeitung. This newspaper provides key content (politics, international) and some content for the business and sports sections.

NEUE is published in a handy small format and is popular on account of its quality regional and national journalism. Its subjects include answers to current questions and fascinating portraits of celebrities and everyday citizens. Its extensive sports coverage on the weekend is also particularly popular.

The Shizuoka Shimbun

The Shizuoka Shimbun

The Shizuoka Shimbun is one of the largest local daily newspaper in Japan, which has circulations of 644,000 copies for its morning edition and the same for its evening edition.

The Shizuoka Shimbun was one of the first daily newspapers in Japan to print in four colors. It was well known as an amazing trial when we had four-color, photos in every day's paper during the Tokyo Olympics in 1964.

The Shizuoka Shimbun is a group Company which has been working and cooperating with Shizuoka Broadcasting System (SBS), TV station and radio, and also its website business.

We have related a newspaper as The Izu Shimbun and Hawaii Hochi. In Hawaii Hochi we are printing a newspaper in digital since 2014.

Why INCQC?

The production members and press crews are always researching to increase efficiency and improve print quality. We believe that we must keep challenging to get better printing quality based on more than 50 years experience and technology for color of newspaper.

Tiskara Zagreb d.o.o.

Večernji list

Tiskara Zagreb is a part of Styria Printing Holding owned by Styria AG.We are regional lider in newspaper printing with 2 daily newspapers,no1. and no2. In circulation of 180.000 copies, 20 weekly,be-weekly and monthly editions in Croatia.

Why INCQC?

The main benefit is our process education and see objectively where we are with quality printing standards compared with others. Also thanks to INCQC's 3 rounds "very tough" competition, we need to maintain prepress, press maintenance and staff motivation on a very high level. In the end we hope to use the learnings to strengthen our internal quality management process. Many thanks to Mr.Anand Srinivasan WAN-IFRA research manager, who made an excellent training 6 months before the start of the INCQC and made our job easier.

IM BLICKPUNKT

Nicht ohne das Internet

So viel Zeit verbringen junge Leute in Deutschland täglich online.

Since it was founded in 1818, Ungeheuer + Ulmer has gone from being the printer of the royal court to a modern media house. It employs some 200 people in the centre of Ludwigsburg, where they produce web (newspapers, inserts) and sheet-fed (leaflets, magazines, business reports) print products in close dialogue with customers. The firm's services range from concept development, editing and design to printing, post-processing and mailing.

The Ludwigsburger Kreiszeitung (LKZ) and its Neckar and Enzbote regional edition is on its 197th year of publication at Ungeheuer + Ulmer, making it the oldest independent regional newspaper in Baden-Württemberg.

It is the most widely circulating daily in the Ludwigsburg district, and in its six regional editions, its full newsroom covers the news in 39 localities in Baden-Württemberg, Germany and the world. LKZ has a print circulation of 40 271 copies (IVW 3/14) and has seen continuous developments in content and design over the years.

The Ludwigsburger Kreiszeitung was the only Germany daily to receive an Award of Excellence in the typography category at the 2013 European Newspaper Awards. It was also recognized for layout and design for the third time running in this same international competition.

Ungeheuer + Ulmer has also gained a reputation for organizing popular regional fairs. In everything from the newspaper to commercial printing, from services to events, the company motto is "everything from a single source".

7Days is the most popular free daily tabloid newspaper in the United Arab Emirates (UAE). It started as a weekly in 2003. One year later it in-creased its frequency to five days a week and rapidly claimed its posi-tion as the 'de facto' essential daily source of news and information serv-ing the country's growing expatriate population.

With an unrivalled reach of villa compounds, apartment blocks, ho-tels, coffee shops and business premises, 7Days boasts an impressive daily readership in excess of 200,000 adults reflecting the general population profile of the UAE. The IPSOS Annual UAE Readership Survey 2010 re-ports that 7Days has more Emirati readers than its closest rival.

7Days is operated by Al Sidra Media LLC, Dubai, one of UAE's leading publishing companies. The portfolio encompasses newspapers, websites, mobile applications, e-Paper, magazines and more.

7DAYS is printed at "United Printing & Publishing" (UPP), the leading high quality printing and publishing company of the region (see below).

Al Ittihad started publishing on 20 October 1969, in a period when late Sheikh Zayed Bin Sultan Al Nahyan, Ruler of Abu Dhabi, was very active, since he was laying time intensive efforts along with his brothers who were the rulers of other emirates to form the union of the UAE. The name Al Ittihad means "The Union" which reflects the fact that the newspaper was supposed to be the mouthpiece of the UAE, not only as a community but also a political entity known for its position and direction. The news-paper initially started as a weekly of 12 pages and a circulation of 5,500 copies. It was distributed free of charge to be competitive with the newspapers from other Arab countries. With the proclamation of UAE in 1971, Al Ittihad was published for several consecutive days and on the occasion of the fifth anniversary of His Highness Sheikh Zayed Bin Sultan Al Nahyan (may God have mercy on him) being ruler of Abu Dhabi on 6 August 1971, it was published on a daily basis for two weeks. Since 22 April 1972, Al Ittihad was published as a daily newspaper with 32 pages including a few color pages. Later the Ittihad Sports supplement with 16 pages was launched and further Duniya Al Ittihad of 16 pages was launched, a daily magazine with a mix of art and culture.

Al Ittihad was recorded as the first publication using high-end technology to transfer editorial content by satellite in Arab countries in 1981. This was the time when another printing press in Dubai was established to print the news-paper in Abu Dhabi and Dubai at the same time and to overcome prob-lems of delay in distribution. Today, Al Ittihad has one of the latest print-ing presses in the Middle East and produces the best print quality at par with foreign newspapers. Nowadays Al Ittihad has 100 reporters in Abu Dhabi and offices in Dubai, Fujairah, Ras Al Khaimah and other emirates, as well as in Beirut and Cairo and correspondents all around the world. All journalists are supported by latest newsroom technologies. Al Ittihad has adopted "Rapid Browser" to receive the latest news from agencies, edit and follow-up until it reaches the final stage of newspaper printing. When Al Ittihad entered the world of internet on Friday, 15 March 1996, it was the first local newspaper to provide this service to its readers.

Al Ittihad is printed at "United Printing & Publishing" (UPP), the leading high quality printing and publishing company of the region (see below).

Alroeya Newspaper was founded on the vision that professionalism is the key to success in the fast-developing media landscape in UAE and the region alike, and from a deep conviction that any media-related project must bring knowledge to the reader and be a positive influence in society – one that implements the highest standards in both form and content. Since its inception on 2 December 2012, Alroeya always aspires to meet the reader's need for a professional, credible and independent publication that tackles and appreciates the issues relevant to their lives. At the time, the newspaper was also aware of the telecom revolution sweeping across the nation, which greatly transformed the media industry.

Alroeya strove to act as an independent newspaper that aims to serve the nation and its citizens and safeguard their right to know the truth. Alroeya has placed for itself a number of professional ethics – multiplicity, neutrality and tolerance. These ethics will continue to be cornerstones of the newspaper's philosophy as it become a venerated podium for the enlightened opinion and objective analysis.

Alroeya comprises of specialised sections which, in addition to the main newspaper, include economics, varieties and sports, in addition to a peri-odic pages specialising in different aspects. In all these pages, the news-paper strives to deliver truth and entertainment in a presentation that is based on honesty, respect for the reader's intelligence and their right to truth.

These efforts go hand in hand with the fact that Alroeya is consist-ently keeping up with the various developments in the advertising in-dustry, providing advertisers with an innovative, highly effective medium through which they can secure nationwide coverage. The newspaper has several advantages that differentiate it from its competitors, including the fact that it is the fastest growing publication in the UAE and the publica-tion with fixed subscriber base, readership and overall reader satisfaction rates. Our commitment to these ethics have helped us become one of the most respected sources for local and international news and a refer-ence of choice for many high profile news agencies.

Alroeya is printed at "United Printing & Publishing" (UPP), the leading high quality printing and publishing company of the region (see below).

The National, the Abu Dhabi Media Company's first English-language publication, launched in April 2008, has set new quality standards in English-language journalism in the Middle East.

The National sought to establish an institution on par with great interna-tional newspapers, but with the authenticity of a paper made in the UAE. With more than 250 journalists based in the country's seven emirates and in offices throughout the world, The National tells the story of the Middle East as seen through the region's eyes, focused on the Abu Dhabi capital, but anchored in the new social and political reality.

2010 The National launched a range of new internet and mobile products and services, a significant step on its evolution towards a multi-platform news organisation.

THE NATIONAL is printed at "United Printing & Publishing" (UPP), the leading printing and publishing company. ISO 9001, 14001 and 18001 certified UPP runs a state-of-the-art print plant in Abu Dhabi. UPP start-ed in 2006, previously known as Emirates Media Inc., established in the 70s as a part of the Abu Dhabi Media Company, and became the largest commercial and newspaper quality print company in the UAE.

With a complete and vast array of equipment and a workforce of more than 600, UPP can offer competitive prices and quick delivery. UPP spe-cialises in newspapers, magazines, brochures, POS products, books, dic-tionaries, newsletters and marketing collaterals. UPP also runs digital presses for short-run jobs and outdoor equipment for billboards etc.

UPP's web-offset presses include KBA Continent, Orient, Hi-line, KBA 213, commercial presses KBA 215 and Manroland Rotoman capable of 50,000 impressions per hour. Sheet-fed presses include two 8 color perfecting presses, one 6 color press, three 5 color presses and two 4 color presses. Binding lines include 4 perfect binders and 3 saddle stitching machines with 8 stations of up to 20,000 books/magazines per hour.

The KBA Continent with 2 heatset and 10 coldset towers, 2 folders, 16 reel-stands and double deck balloon formers can print up to 48 pages in 4 colors at a speed of 50,000 cph. Newspaper presses are integrated with a Muller Martini mailroom running 6 stackers with 11 online strappers, a common delivery ramp having 2 film wrapping machines. The entire mailroom is integrated with 3 online/offline SLS 3000 inserting machines, each with 6 stream feeders and 3 lines of Mailroom Production Control (MPC) bundle labelling systems. In addition a duly integrated card gluing Value Liner with is available.

Feuerwehr muss bei sich selbst löschen

NÜRNBERGER NACHRICHTEN is one of the major regional newspapers in the Federal Republic of Germany. With a print run of around 250.000 Monday to Friday and approximately 281.000 on Saturdays, it is available in 24 different versions in fifteen counties in Mittelfranken (Central Franconia) and neighbouring regions in Oberfranken (Upper Franconia) and Oberpfalz (the Upper Palatinate). Some 1.8 million people live in the paper´s circulation area, which stretches from Pegnitz to Treuchtlingen and Parsberg to Rothenburg ob der Tauber, and it has a daily readership of 820,000.

The entire production of NÜRNBERGER NACHRICHTEN is controlled and carried out in-house in the centre of the city. The two presses are equipped with 12 printing towers and 16 four-color pages are possible per tower. Typically, 40,000 copies of the newspaper (43,000 maximum) run through the couples and the six folder devices per hour. The folders are designed to cope with 96 four-colour pages However, NÜRNBERGER NACHRICHTEN prints a maximum of 64 pages in one go.

NÜRNBERGER ZEITUNG, one of Germany's oldest daily papers, first appeared on the scene under the name "Der Fränkische Kreiscorrespondent von und für Deutschland". Today, NÜRNBERGER ZEITUNG and its sister paper NORDBAYERISCHE ZEITUNG are sold throughout almost all of the Mittelfranken region (Central Franconia). With an average print run of around 26.000 copies on weekdays and 28.000 on Saturdays, NÜRNBERGER ZEITUNG ranks among the reliable dailies, providing up-to-date, critical coverage on all areas of everyday life.

The paper is printed at VERLAG NÜRNBERGER PRESSE, Druckhaus Nürnberg GmbH & Co. KG – in the very heart of the city.

V-TAB Västerås is one out of six printing plants within the V-TAB group. V-TAB gives you access to all the printing expertise you could possibly need and a vast range of services, everything from newspapers and direct advertising to signs and business printing in all possible – and impossible! – shapes and sizes. Our plants can be found in strategic locations all over Sweden so that we're never far away from our newspaper and direct advertising customers. Our customers include some of Sweden's best-known daily papers, journals and business chains.

Why INCQC?

Through the participation in the WAN-IFRA Color Quality Club we have made many improvements on our prepress and printing processes that will benefit all our customers in every day work. It also creates a big commitment by our employees for quality printing that will produce happier customers. It is a Win-Win competition.
